about us

Led by Innovation

Our revolutionary product range helps to transform cleaning times and results, guided by our core values:

INQUIRE

To revolutionise the industry, we speak to users, tailoring our products to meet specific demands.

INNOVATE

Designed with innovation as the primary goal, our class-leading products offer a true four-dimensional clean.

INSPIRE

Our job isn't done until we see how products are transforming businesses and inspiring clients first-hand.

These values are underpinned by our belief that all products should be faster, cleaner, greener, better, and safer than traditional cleaning equipment.

partner network

Global Reach - Local Experts

i-team is a global family of distribution partners in over 60 countries. The i-team community is all about sharing; we believe sharing knowledge is critical for creating sustainable solutions.

made blue

At i-team, we believe that we have a responsibility to improve our environmental outcomes.

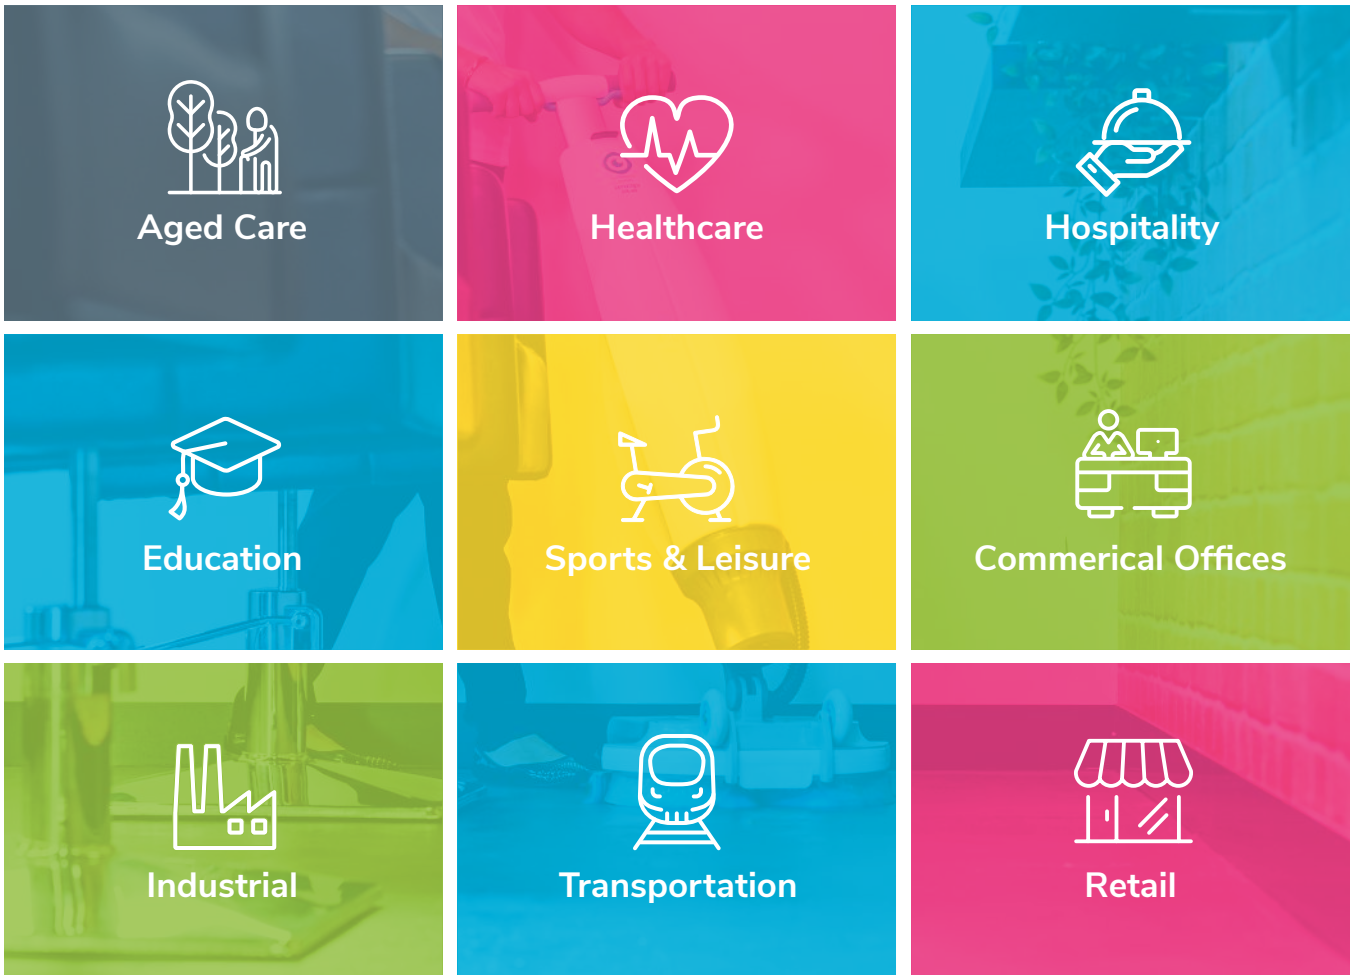

Cleaning is a water-intensive activity, which is why we've designed our products with water-efficient technologies, and formed a partnership with non-profit, Made Blue.

Alongside Made Blue, every drop of water saved by an i-mop is mirrored with a donation of clean drinking water in water-vulnerable communities.

This equates to around
18-litres of water
per individual i-mop,
each day around the globe.

So far, this has delivered over
**1 billion litres
of water**
with no signs of slowing down.

cleaning solutions for different industries

No one industry has the same set of cleaning requirements.

Variations to cleaning tools, solutions and processes are required to suit the dynamics of each environment. Your environment may operate 24/7, require morning or night-time cleaning, or may have varying levels of hygiene standards in different areas of the same facility.

i-team is focussed on providing solutions to meet these varied cleaning & hygiene requirements. Our unique 4D cleaning concept approaches cleaning in a different way, ensuring that all 4 dimensions of cleaning are taken care of in a way that is appropriate, no matter the industry.

i-mop lite

Compact scrubber dryer

The most compact device in the i-mop family, the i-mop lite excels at home or work, providing effortless cleaning of small to medium spaces.

Extreme mobility

Patented design, ideal for cleaning floors in areas where you cannot normally use a scrubber.

Exceptional power

High-speed 500rpm brushes for an intense clean.

Suits all floors

Array of brushes and pads available to suit stone, tiles, concrete and wood floors.

Easy to use

Simple, easy to understand push button controls.

Eco-mode

Activate eco-mode to save additional water, or on moisture sensitive floors.

Light & portable

14kg design fits in the back of a standard car.

Battery operated

Utilises portable lithium-ion batteries, eliminating trip hazards from power leads.

Technical Specifications

Theoretical performance	1400 m ² per hour
Clean water tank	3 L
Recovery clean tank	5 L
Brush speed	500 RPM
Scrub width	37 cm
Brush pressure	13.2 kg
Battery	i-power 12
Runtime	45 min
Charge time	6 hours

Why i-mop lite?

- > Extremely manoeuvrable, user-friendly design
- > Dirt removal rating of 97% compared to traditional mopping methods of only 30-40%
- > 3-4 times faster than mopping
- > No more dirty edges – scrubs right to the edge
- > No trip hazards – runs on portable lithium batteries
- > Powerful cleaning on all hard floor surfaces

i-mop XL & XXL

Flexible, effective and fast!

The i-mop is a revolutionary floor cleaning machine that has changed cleaning standards and redefined the concept of a floor scrubber. Available in XL (46 cm) & XXL (62 cm).

i-dose cleaning efficiency

Save time and stop wastage by using the i-dose chemical system.

Battery operated

Runs on Lithium batteries like the i-power 9 or 14 batteries that is easily exchangeable when recharging.

Extreme mobility

Low profile deck to clean underneath objects and 360 degrees of flexibility.

Why i-mop XL & XXL?

- > Extremely manoeuvrable scrubber dryer.
- > Dirt removal rating of 97% compared to traditional mopping methods of only 30-40%.
- > 30mins with a mop & bucket will take 5mins with an i-mop.
- > No more tide marks – cleans right to the edge.
- > No trip hazards – runs on portable Lithium batteries
- > 80% lighter than a comparable walk behind scrubber.
- > Applications include timber, vinyl, tiles, natural stone, concrete and more.

i-scrub 30EM Pro

Powerful orbital scrubber

The i-scrub 30EM Pro is a single disc scrubbing machine offering extreme cleaning power on both carpet and hard floors, thanks to its innovative scrubbing technology.

Solution tank

Apply solution as you scrub for additional cleaning power.

Lightweight

Easy single-person lift; say goodbye to heavy 30kg traditional scrubbers.

Edge protection

Soft rubber edge allows cleaning close to furniture without risk of damage.

Multi-surface cleaning

Includes soft & hard brushes and microfibre pads for carpet & hard surface scrubbing.

Soft grips

Soft handles for superb control and excellent user ergonomics.

Onboard cable holder

For easy storage of the power cable.

Revolutionary cleaning power

Unique orbital action scrubs the floor with 1650 cleaning passes per minute.

Easy transport

Folding wheels make it easy to take the i-scrub 30EM Pro with you everywhere you go. When the wheels are hindering your work, simply fold them away.

Technical Specifications

Weight	12.6 kg
Size (l x w x h)	27 x 23 x 120 cm
Power	650 W
Brush speed (Orbital)	1650 RPM
Scrub width	30 cm
Cable length	10 m
Tank capacity	1.7 L

Why i-scrub 30EM Pro?

- > Versatile – strip, clean, scrub & buff floors
- > Clean hard floors and carpet
- > Safer - no side swing like swing scrubbers
- > Easy to lift & transport
- > 1650 rpm; up to 8 times the effective cleaning power of traditional single disc machines

i-scrub 30EM Pro accessories

	CODE	PRODUCT	DESCRIPTION
	EM3P.I-V.1110C	i-scrub 30	Includes soft & medium brushes, pad drive + white & microfibre pads
	S.28.0010.0	Soft carpet brush black	Used for light agitation

	24.0036.0	Polishing pad white	White soft pad for light buffing and polishing
	24.0037.0	Microfibre bonnet pad	Absorbent microfibre pad with polypropylene strips for encapsulation cleaning of carpets and rugs

i-scrub 21B

Battery powered micro-scrubber

Compact, multi-purpose scrubber with maximum cleaning power and operator ergonomics.

Easy to use

Lightweight, ergonomic and easily controlled from the handle grip.

Long run time

Scrub for up to 2.5 hours at a time.

Onboard tank

Dispense cleaning solution right where you need it for accurate cleaning results.

Multi-surface cleaning

Includes soft & hard brushes, pad drives and microfibre pads for upholstery cleaning.

Dual brush head

Twin 400rpm brush heads provide higher mechanical power and effective cleaning for narrow gaps in tight areas.

Hand or pole mount

Complete with pole-mount for floors, or handheld version for walls and elevated areas.

Flexible head

The 360-degree adjustable head offers access to hard-to-reach areas; horizontal and vertical.

Technical Specifications

Weight	3.2 kg
Runtime	150 minutes
Charge time	210 minutes
Brush speed	400 RPM
Scrub width	21 cm
Minimal clearance area	95 mm

i-remove

Gum & graffiti remover

With i-remove, six-seconds is all it takes to safely dissolve pesky gum and graffiti marks, transforming dirty surfaces before your eyes with precision.

Easy to use

Controls located in the head of the machine.

Safe to use

Works in different environments; no dangerous fumes or heat present.

No waste-water

Low volumes of water, unlike a pressure-cleaner means there is no need to restrict areas to pedestrians, and reduces environmental impact.

6 seconds is all it takes

Eliminate any unwanted sticky materials (chewing gum, stickers, lining glue) in just six-seconds.

Highly portable

Includes trolley handle and integrated backpack harness.

Cord-free operation

Interchangeable lithium-ion batteries eliminates trip hazards.

No residue

i-remove solution dissolves gum, leaving no sticky residue on surfaces.

Suitable for all surfaces

Remove gum & graffiti on hardwood, soft floors, tarmac, doors, cabinets, plywood, concrete and steel.

Technical Specifications

Weight	9.4 kg
Tank capacity	2.5 L
Consumption	2 L per hour
Batteries	1 or 2 i-power 9 or 14 batteries
Run time (2 batteries)	80 min with i-power 9 & 100 min with i-power 14
Charge time: i-charge 2	5-6 hours for i-power 9 & 7-8 hours for i-power 14
Charge time: i-charge 9	60-70 min for i-power 9 & 90-100 min for i-power 14

Scan for more info

Why i-remove?

- > Fast & effective
- > Stops gum build-up – deal with gum removal as part of regular cleaning routines
- > No trip-hazards – runs on portable lithium batteries
- > Effective on all surfaces
- > Easy to use with low operating weight

i-drive

The smarter ride-on floor scrubber

A groundbreaking world-first that combines the i-mop lite onboard with a ride-on scrubber, allowing operators to stop and clean small spaces as part of their cleaning routine.

Easy operation

No PhD required to operate the i-drive; we have done all the programming for you. Self-explanatory icons and a clear control panel make this one user-friendly ride.

Small space cleaning

Stop and clean small spaces such as washrooms with the on-board i-mop lite.

Refill on-the-go

Fill, refill and empty the i-mop Lite easily. You're no longer bound to filling stations; simply get fresh water from the i-drive, or empty the recovery tank into the i-drive.

Ramp

Safe and ergonomic loading and unloading of the i-mop lite.

Adjustable pedal

The pedal is easily positioned to meet the driver's exact requirements.

Interchangeable Batteries

Holds 6 x i-power 14 or 20 batteries. With 2 sets of batteries, you can operate it 24/7.

i-stack 3

Recharge our batteries with the included wall mounted charging system.

Technical Specifications

Theoretical performance	2745 m ² per hour
Practical performance	1400 m ² per hour
Pad pressure	25 kg
Pad speed	175 RPM
Typical operational weight	208 kg
Gross vehicle weight	349 kg
Driving speed	5.5 km/h
Solution tank	58 L
Recovery tank	55 L
Detergent tank	5.5 L
Battery	6 x i-power 14 or 20
Runtime	80 min with i-power 14 & 120 min with i-power 20

Get in the cloud Link your inventory

i-link®

i-link is the new cloud based platform for all your tools, machines and compliances. New i-team products will have a small module located inside of them, already integrated with the i-link cloud. This module will send usage information, battery levels, and even the location of the machines to the platform every day.

GOOD TO KNOW

You can also add other machines to your asset management. Connect them with a QR code and have total asset management.

vac 5

Compact electric vacuum cleaner

Meet the leading compact vacuum that sacrifices no reliability, power or performance. The vac 5 is designed for years of trouble-free, user-friendly vacuuming performance.

Dual-reinforced hose

No compromises on strength with double reinforcement at both ends for ultra-long life.

Durable

No plastic here. Genuine stainless steel 3-piece wand; use 2 or 3 sections for different height operations.

Compact design

Ideal for working in smaller areas and close-to-body carrying.

Illuminated switch

Helps troubleshooting in case of power failures or other technical difficulties.

Stop dust leakage when changing bags.
5 liter bag with lock

Integrated cord wrap

Sturdy, ergonomic main handle doubles as a cord wrap.

Tangle-free cable

Internally glued cable strands to eliminate cable twisting and extend cable life.

Integrated tool holders

Hose & wand plus array of accessories can be stored on the machine.

Technical Specifications

Tool size	32 mm (standard)
Weight	4.8 kg
Capacity	5 L
Sound level	62 dBA
Air flow	50 L/sec
Cable Length	8 m

vac 5B

Compact battery vacuum

We believe a battery vacuum shouldn't sacrifice its performance. The vac 5B reaches up to 80% of the suction power of a comparable electric vacuum, offering exceptional results with added portability.

Durable

No plastic here. Genuine stainless steel 3-piece wand; use 2 or 3 sections for different height operations.

Battery operated

Choose from i-power 9 or 14 batteries. Operate continuously with easily interchangeable batteries. Compatible with either left or right batteries.

Integrated tool holders

Hose & wand plus all accessories can be stored on the machine.

Stop dust leakage when changing bags.

5 liter bag with lock

Dual-reinforced hose

No compromises thanks to a double reinforced construction at both ends for ultra-long life.

Powerful suction

Powerful motor reaches 80% (indication) of the suction of cable operated vacuums.

Compact design

Ideal for working in smaller areas and close-to-body carrying.

Illuminated switch

Helps troubleshooting in case of power failures or other technical difficulties.

vac 6

Powerful electric commercial vacuum

The vac 6 is a powerful and practical high quality vacuum cleaner, packed with features. This vacuum is built to be indestructible while retaining class-leading suction and high-tech features.

Quiet mode

Choose high-power (62 dBA) or low-power (58 dBA) settings for daytime cleaning.

Resilient body

Virtually indestructible body. All components assembled with screws, instead of rivets.

Dual-reinforced hose

No compromises - double reinforced at both ends for ultra-long life.

Whizzo

Patented Whizzo indicator makes a loud high tone when bag is full, or the vacuum is clogged, preventing motor damage and costly repairs.

Durable

Heavy duty stainless steel extendible wand to suit varying height operators.

Ultra fine, double filtration

Choose from Standard, medical-grade HEPA 14 or even ULPA filtration. Dual filter design - both pre & post-motor- enable the highest possible levels of air quality.

Tangle-free cable

Internally glued cable strands to eliminate cable twisting and extend cable life.

Fragrance cassette

Inbuilt fragrance cassette leaves a pleasant aroma after vacuuming.

Durable wheels

Long-life wheels made of shock absorbing materials.

Why vac 6?

- > Robust European engineering
- > High quality tools & accessories
- > Ultra-high filtration performance
- > Patented Whizzo technology prevents motor damage
- > Optional fragrance cassette
- > Offers 3 levels of filtration: Standard, HEPA H14 or ULPA

co-botic 1700

Commercial robotic vacuum cleaner

The co-botic 1700 is a smart, programmable vacuum robot that allows you to simply sit back and watch the cleaning magic happen before your eyes.

Using the App

Create cleaning plans, exclusion zones and assign it to a schedule for automatic cleaning - all from the i-team professional App.

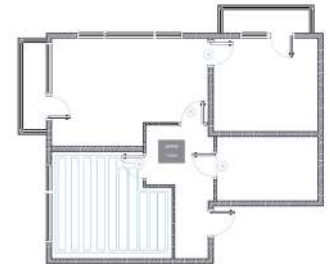

Remote controlled

Use the remote to directly start autonomously cleaning a room, instead of using the app.

Optional Docking station

The co-botic 1700 automatically finds the route to the docking station, empties itself and recharges while docked.

Sophisticated live mapping

Fitted with 25 advanced sensors to ensure an optimal and efficient cleaning outcome.

Dustbin inside

The removable dust collector is fitted with a HEPA filter to ensure clean exhaust air.

Technical Specifications

Power rate	50 W
Voltage	14.4 V
Runtime	270 minutes
Charge time	240 minutes
Sound level	65-73 dB
Speed	0.3 m/s
Dust bin volume	400 ml
Dimensions (l x w x h)	350x350x98 mm
Docking station capacity	4.2 L

Why co-botic 1700?

- > Unleash the efficiency of automated vacuuming
- > Free up staff to focus on other tasks
- > Automatic emptying into docking station
- > Eliminate the strain on operators from Manual vacuuming
- > Program the co-botic 1700 with the app - or allow it to program itself

i-move 2.5B

Cordless backpack vacuum cleaner

Say hello to next generation backpack vacuuming. The i-move 2.5b combines lightweight and ergonomic design with serious vacuuming power and productivity.

Easy to operate

Turn the machine on and off with a remote-control power switch.

Long run time

2 x i-power 8.7 batteries give up to 52 mins of runtime.

Dual-purpose nozzle

The nozzle can be used on both hard and soft floors.

Smarter materials

Extendable hose and handle.

360° Swivel hose

The 360° swivel hose keeps the hose untangled while you clean.

Ergonomic design

The light weight of only 5.28kg (including batteries) makes the i-move 2.5B easy to work with.

Filtration options

Choose between a standard or HEPA 14 filter.

Smells clean, is clean

Optional i-scent fragrance cartridge leaves a pleasant smell in the room after cleaning.

Why i-move 2.5B?

- > Next generation backpack design
- > Premium European engineering
- > High quality tools & accessories
- > Battery operated means no trip hazards

i-spraywash

i-fibre

i-scrub 26H

i-cover 1.0

i-spraywash

Fast foam cleaning system

i-spraywash is a user-friendly, plug & play foam gun with integrated chemical dosing. It uses unique chemical tablets alongside a specialised nozzle that creates an active foam to improve cleaning results and your productivity.

Easy to use

1. Choose your tab
2. Apply foam
3. Let the foam work its magic
4. Rinse

Faster cleaning

The unique spray pattern of the i-spraywash cleans at 1sqm per second.

Integrated dosing

Adjust dosage on the fly with the integrated dosage control.

Faster rinsing

After foaming, disconnect the dosing unit and attach the adjustable rinse nozzle for fast rinsing.

Ergonomic

Weighs just 1kg – less than half the weight of comparable foamers.

Flow adjustment

Adjust pressure on the run as required.

Standard connections

2 Versions available. Gardena (standard garden hose fitting) and Nito (common in food industry). Operates off mains water and normal tap pressure.

Active foam

Very fine active foam bubbles are lighter and cling for longer on vertical surfaces.

No wastage

Use colour-coded tablet holders to store leftover tablets for next time.

Choose the right tab

Choose from 5 tablets for different cleaning and disinfection tasks.

- > Tablet 1 – Descaling
- > Tablet 9 – Daily cleaning
- > Tablet 12 – Heavy, greasy area cleaning
- > DesTab – Disinfection with active oxygen
- > ChlorTab Extra – Disinfection with Chlorine

Technical Specifications

Weight	0.8 kg
Size	34 x 19 cm
Water pressure	2-4.5 bar
Max. using temperature	45°
Min. using temperature	5°

i-cover 1.0

Disinfectant spray machine

Market-leading cold mist generator that offers powerful disinfecting technology in a convenient, ergonomic hand-held package for rapid, superior results.

Excellent ergonomics

Carry it in your hand, over your shoulder or convert it into an optional backpack.

Battery operated

Runs on interchangeable batteries. (Compatible with either left or right batteries. Battery & charger not included).

All day cleaning

Runs for up to 11 hours on 1 x i-power 9, 18 hours on 1 x i-power 14 & 26 hours on 1 x i-power 20.

Corrosion resistant

All internal rubber components are chemical and corrosion resistant.

Stainless steel nozzles

4 nozzles options for different environments and coverage (comes with 1 set of nozzles).

Removable tank

Packaged with a second tank, enabling continuous cleaning (comes with 2 tanks).

i-scrub 26H

Superior surface cleaning tool

The i-scrub 26h replaces hand cloths and exposes hidden soiling with the inbuilt UV light. Enabling a completely new level of surface wiping productivity and effectiveness.

Rubber grip

Comfortable, ergonomic hand grip for extended cleaning periods. Optional set of 4 grips for colour coding applications.

700 wash guarantee

i-fibre is designed for serious commercial use, lowering the total cost of ownership.

Integrated UV light

Expose stains and residual bacteria invisible to the naked eye.

Inbuilt scraper

Remove tough soil with the inbuilt scraping edge.

Trio-split microfiber pads

Fully colour coded with triple the dirt removal capacity of traditional microfibre.

Soft-edge technology

Dust and clean rounded areas such as sinks and cornices.

Superior cleaning

Clean faster, offers even surface pressure compared to traditional microfibre hand cloths.

configurator

Customise our products to get
the exact look you're after – **it's easy.**

With the i-team configurator, it's possible to customise your machines to instantly create consistency with your brand. Adding a colour scheme unique to your organisation helps inspire key stakeholders, while the addition of your logo can help to further advertise your brand.

air purification

i-air

i-sense

i-fogger 3.5

i-air Pro

Commercial air purifier

Ultra-low maintenance, high-capacity air purifier utilising medical grade HEPA H14 filters, UV technology and photo-catalytic oxidation to remove **>99.999%** of airborne viruses, bacteria and particulates.

LAN connected

Connect multiple i-airs and control from a PC.

Medical grade filtration

Highest H14 HEPA filtration with large surface area removes 99.999% of particulates at PM1.0 size.

Quiet, powerful fan

Four choices of fan speeds for blowing cleaned air.

Ultra low maintenance

Up to 24-month lifespan for main H14 filter & up to 12-months for carbon pre-filter.

UV kill chamber

Dual UVC & UVA lamps destroy VOCs, microbes and viruses.

* i-air Pro has been found to kill 99.999% of viruses when independently tested on Coronavirus, influenza, and Staphylococcus.

Carbon Pre-filter

Air passes through the active carbon pre-filter, removing large particles, odours and VOCs.

Use in combination with the **i-sense air quality meter**

Technical Specifications

Dimensions	127x68x33 cm
Weight	72 kg
Control panel	20 character, 4-line LCD display
Noise level (4 fan speeds)	32 - 61 dB
Main HEPA 14 filter life	Average up to 24 months, with 24/7 operation
PM particle filtration at $\geq 0,3\mu$ (H14)	$\geq 99,999\%$
VOC reduction (TVOC)	$\geq 95-97\%$
Microbiological contamination reduction level	$\geq 99,9\%$
Recommended room size	50-500 m ² , depending on air contamination level
Control via local LAN	Yes, dedicated website

Why i-air Pro?

- > Specialised combination of UVC + photocatalytic oxidation + HEPA H14 filtration + Carbon pre-filter for superior results
- > Main filter offers up to 24-months lifespan with 24/7 use
- > Self-cleaning kill chamber extends filter life and eliminates bacterial build-ups
- > Removes all 3 contaminants: particulates, bacteria and VOCs
- > Combine with i-sense for a complete IAQ monitoring solution

i-sense

Air quality meter

The i-sense is a portable, easy to use Air quality meter that allows you to accurately monitor the quality of the air inside your surroundings to optimise the air that you're breathing.

Simple interface

Easy to understand icons and controls.

Comprehensive monitoring

Monitors 3 common contaminants: CO₂, PM_{2.5} Particulate Matter, and VOC's, as well as temperature & humidity.

Portable

Choice of optional battery or electrically powered units.

Connected Devices

Easily monitor air quality in multiple locations with the I-link platform.

Practical

Monitor air quality from your smartphone.

i-fogger 3.5

High volume backpack fogger

The i-fogger is a practical tool to have during and after the COVID-19 pandemic. It disinfects surfaces and entire spaces quickly. The mobile unit creates and disperses a disinfectant aerosol (mist) that help reduce the number of airborne micro-organisms and viruses.

Excellent ergonomics

The user wears a backpack, allowing complete freedom of movement.

Self-reset switch

This prevents the machine from automatically or unintentionally restarting.

High-volume disinfection

Easily and effectively disinfect locations with heavy-foot-traffic like cinemas, airplanes, trains, busses, shopping malls and more.

Battery operated

Only needs 1 x i-power 9 or 14 battery for 50mins of use.

A nozzle for every job

Interchangeable nozzles can regulate the mist from 20-150 microns droplet size as needed.

Removable tank

Easily fill, clean & empty the 3 L tank at a sink.

Technical Specifications

Weight	7.9 kg
Dimensions	20x60x23 cm
Tank capacity	3 L
Battery	1 x i-power 9 or 14
Run time	40 min with i-power 9 & 50 min with i-power 14
Charge time:	5-6 hours for i-power 9 & 7-8 hours for i-power 14
Charge time:	60-70 min for i-power 9 & 90-100 min for i-power 14
Speed of spray	175-100ml/minute
Hose length	1.2 m
Droplet size	20-150 um
Machine power	450W
Spray distance	5-6 m

i-land S Pro

The compact cleaning trolley

Transport all your cleaning products & i-mop on one cart, enabling you to service multiple areas without having to go back and refill, in a convenient, compact and versatile design.

Onboard charger

Charge your i-power batteries on the go with the onboard charger.

Storage basket

Store spray bottles or additional small cleaning accessories.

Dusting tool holder

Attach your dusting tool or i-fibre mop to your cleaning trolley for easy accessibility.

Multiple cleaning tasks

Load up your i-mop, microfibre cloths and mops, chemicals, tanks and batteries on this i-land S.

Air tyres

The versatile air-tyred version can be used outside or on uneven surfaces, whilst remaining perfectly suitable for indoor environments.

Reduce travel time

By consolidating all your cleaning tools into the i-land you reduce traveling time back to the storage.

Large Deck

Easily load your i-mop, lock it in position and safely transport it on the large deck space.

Why i-land S Pro?

- > Compact & versatile
- > Secure storage for your i-mop, tools and accessories
- > Large pneumatic-tyres for easy transport over rough surfaces, or up stairs
- > Eliminates productivity lost returning to the cleaner's storeroom
- > Carries additional tanks to support colour coded cleaning routines

i-land L Pro

Fully equipped cleaning trolley

When it comes to cleaning large buildings and on-site projects, you need an effective workstation that holds all your cleaning equipment. The i-land L Pro is an outstanding all-in-one solution.

Charge on the go

Integrated power board and charger holders for charging additional i-power batteries while cleaning.

Lockable drawers

Fully enclosed lockable drawers with heavy duty runners for long life.

i-fibre compatible

Designed for use with the i-fibre 4D microfibre cleaning system.

Equipment slots

16 large holders accommodate all your tools and accessories.

Tablet bracket (optional)

The trolley can be fitted with a bracket to hold your iPad or tablet.

Tank storage

Store additional i-mop xl/xxl tanks on board for extended cleaning time.

i-mop storage

Onboard ramp for easy mobilisation of the i-mop floor scrubber.

Why i-land L Pro?

- > Store an array of cleaning equipment and accessories on a single mobile cleaning island
- > Colour-coded tank lids and on-board cleaning buckets enable colour-coded cleaning routines, preventing cross-contamination
- > Eliminate productivity lost from returning to the cleaner's storeroom whilst cleaning
- > Ultra heavy duty rotomoulded construction for long life in commercial environments

i-matt

Commercial floor mat

i-matt is a durable, clean-in-place, no-trip floor matting system that improves floor safety and ease of cleaning. Better still, the i-matt does not need to be removed before cleaning - it can be cleaned seamlessly with our innovative i-mop, as though it is part of the main floor.

Total 9m per roll

Comes in a 9m roll of 91.5cm wide x 3 precut sections; an ideal size for entrances and walkways.

Adhesive Technology

Lays flat and stays put with no shifting; easily removed with no residue left behind.

Super Absorbent

Absorbs and spreads out water, so the i-matt dries fast; traps dirt to prevent it from being tracked around the cleaned area. Each 9m roll holds up to 30 litres of water.

Hi-Trac surface

Certified by NFSI to reduce slip and fall claims by up to 90%.

Hard wearing

Withstands daily cleaning, extreme foot and wheeled traffic; lasts up to 12 months.

Easy installation

Easily installed. Connect edges to suit all areas and around corners.

Technical Specifications

Size	Roll of 3 precut sections, each 91.5 cm x 3 m
Fluids Absorbed	Oils, Coolants, Solvents & Water
Absorbency	up to 30 L per roll
Temperature Limit	Surface temperatures from 13°C - 49°C
Composition	Absorbent - Polypropylene; Adhesive Backing - Proprietary Adhesive Material

Codes

Scan for more info

Why i-matt?

- > Save 5 minutes every day; no removing and relaying mats before/after cleaning
- > Saves money compared with cost of rental mats
- > Captures water and dirt at the door to keep floors cleaner
- > Lowers environmental impact – no harsh laundering chemicals
- > Safer - stops trips, slips and accidents

i-dose

Chemical Dosing System

The i-dose system is designed specifically for the i-mop xl, combining ecologically-conscious cleaning detergents with a user-friendly pod design.

i-dose solution tank

Conveniently equipped with a side port for refilling water without needing to remove the injector. You can easily click-on and click-off the tank as you're used to.

Interchangeable tank

Replaces the existing tank on any i-mop xl model.

i-dose cleaning pods

Choose the perfect i-dose pod for your needs.

E52 Daily Floor Cleaner

The i-dose E-52 Daily Floor Cleaner is an environmentally friendly, plant-based solution for effective everyday cleaning of any hard floor.

E33 Sanitary Floor Cleaner

The i-dose E-33 Sanitary Floor Cleaner is an environmentally friendly, plant-based and mildly acidic cleaning solution designed to cut through limescale and scum buildup in bathroom areas.

E73 Degreasing Floor Cleaner

The i-dose E-73 Degreasing Floor Cleaner is powerful degreasing floor cleaner designed for kitchen and foodservice environments, as well as industrial workshops.

i-dose injector

The injector is inserted on the top port of the new i-dose solution tank. Place the pod here and close the cap. The injector pierces the cup with exactly the right pressure and the liquid disperses evenly in the solution tank.

i-dose cleaning pod holder

Holds up to 10 i-dose cleaning pod refills, enabling dispensing anywhere. The cleaning pod holder fits on the inside of the solution tank.

Why i-dose?

- > No more risky "glug-glug" manual diluting chemicals
- > Perfectly-measured doses eliminate over- or under-dosing
- > Specifically engineered to disperse through water tank without shaking
- > Entirely plant-based cradle-to-cradle formulas
- > One pod accurately doses one i-mop xl tank

i-suit

High-reach window cleaning support

The i-suit eliminates neck strains and pains associated with high-mounted window cleaning, reducing operator effort whilst improving the productivity and efficacy of the cleaning process.

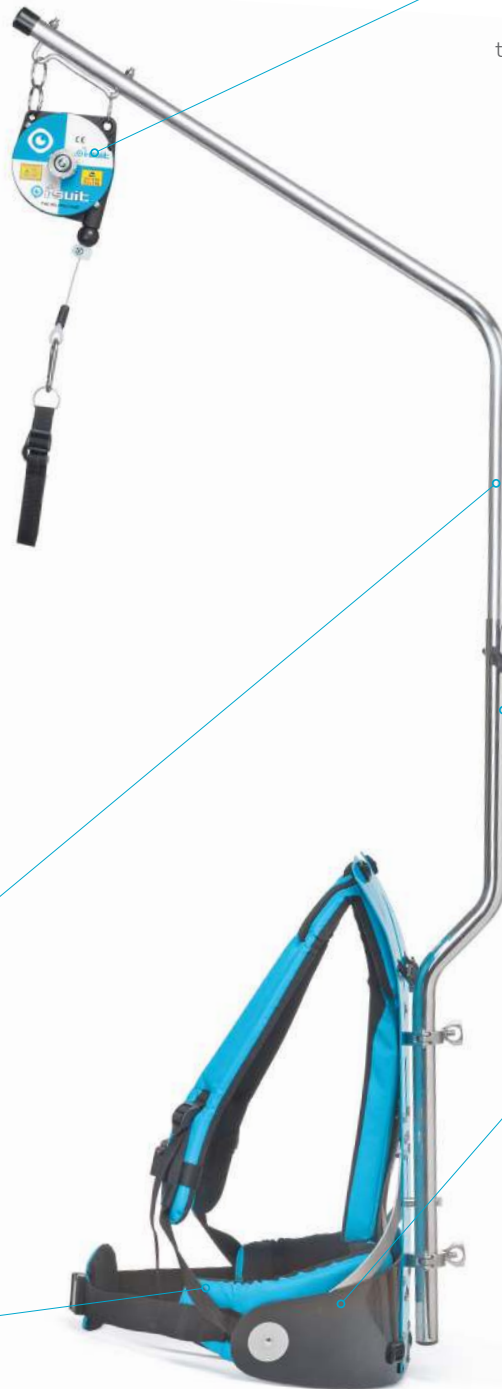

High-pressure washers

Attach your pressure washer high-reach wand to make cleaning vertical surfaces with a high-pressure water blaster a breeze.

i-suit glasses

Unique 90-degree glasses allow you to look straight ahead and see your actions vertically.

One handed cleaning

With the integrated pulley taking the weight, cleaning with one hand is a reality.

Multi-brand compatible

Compatible with all brands of high-reach poles.

Backpack & lance

All the weight of your high-reach window cleaning pole is centred and lifted from the middle- liberating the movement, and reducing neck and back strain while offering better visibility of the area being cleaned.

Why i-suit?

- > Takes the strain out of window cleaning
- > Easy-to-use
- > Improves cleaning speed
- > Multi-brand compatible
- > Demonstrates innovation to clients, and duty of care to staff

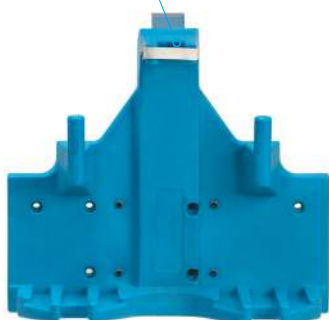

i-store & i-stand

3 Ways to store your i-mop

Easily pack away your i-mop and accessories with our storage options. Mount it against the wall, stand it upright or store it in a heavy-duty steel cabinet.

i-stand Wall

Wall mount bracket designed to hold your i-mop in place.

i-stand

Heavy-duty freestanding holder designed to hold your i-mop in place.

Stay organised

Adjustable shelves and hooks for brushes, pads and chargers makes it easy to find what you're looking for.

Easy to setup

The steel storage closet is easy to build & set up.

i-store

Store your i-mop, wallchargers, pads, brushes and more in one convenient storage unit.

Built-in power outlet

Charge your i-power batteries straight out of the i-store.

Why i-store & i-stand?

- > All-in-one storage makes it the perfect utilities closet in your storage facility
- > Charge your i-mop batteries directly from the built-in power outlet
- > Makes all your i-mop accessories easily accessible
- > Secure the i-mop in your storeroom with a lockable key
- > Organise your storeroom with our storage options

Commercial cleaning measurement tools

Data-driven cleaning; the i-know allows you to prove the effectiveness of your cleaning processes, eliminating guesswork, improving accountability and inspiring confidence.

Why i-know?

- > Monitor cleanliness with accurate, real-world data
- > Demonstrate new levels of innovation & professionalism
- > Perform before and after tests to optimise processes
- > Reduce safety risks and improve OH&S outcomes
- > Empower staff to uphold cleaning standards

Wheeled suitcase

Present a professional image to clients by transporting all i-know testing tools in one sleek, sturdy case.

pH Tester

Test the pH of cleaning solutions, ensuring suitability for delicate surfaces.

Gloss meter

Monitor floor conditions and optimise floor cleaning & polishing processes with the gloss meter.

ATP tests

Use ATP tests to check if surfaces meet expected cleaning standards.

Slip-tester

Slip-alert saves time, money and helps to prevent injuries from slip accidents.

Technical specifications

ATP Meter

Carry weight	approx 260 grams
Size body (l x w x h)	72 x 191 x 32 mm
Operating temp. range	5 ~ 40° C
Relative humidity range	20 ~ 85%, non condensing
Measurement range	0 to 9999 RLUs
Measurement time	15 sec
Measurement noise	+/- 5% or +/- 5RLUs
Programmable result threshold	100 programs
Result memory size	500 tests
Batteries size	AA LR6 or E91
Battery types	nom. 1.5V Alkaline (non rechargeable) nom. 1.2V NiMH or NiCD (rechargeable)
Charger type	Off-board
Battery capacity	min. 6 months (standby mode at 20° C) min. 500 test (continuous reading)

Gloss Meter

Carry weight	approx 350 grams
Size body (l x w x h)	160 x 75 x 90 mm
Operation temperature	0~40° C
Humidity	<85% relative humidity
Measuring time	0.5 sec
Measurement angle	20°/60°/85°
Measurement area	20°: 10 x 10 mm 60°: 9 x 15mm 85°: 5 x 36 mm

i-alert

Weight slip alert	5 kg
Size body (l x w x h)	250 x 180 x 70 mm
Size ramp	900 x 190 x 250 mm

fundamentals

We believe that the traditional approach to cleaning just doesn't cut it in the modern age.

That's why our range of revolutionary products are built to tackle five most common challenges that every industry faces.

We call them our five fundamentals:

faster

cleaner

greener

safer

better

The i-team approach ensures that each of our products are built with our five fundamentals in mind, providing you with more effective tools that reduce cleaning times, improve cleaning outcomes - all while optimising safety and environmental considerations.

Seeing is believing

Schedule a demonstration today
and discover how our product range can
revolutionize your cleaning operation.
We promise you'll be amazed.
