

# Aquaculture Farm Hands/Divers

---

At Akaroa Salmon we operate two sea-pen Chinook salmon production farms in Lucas and Titoki Bays, which are located within the confines of Akaroa Harbour. We have been operating for over 30 years and are a well-established and respected salmon producer. We operate a processing facility in Christchurch and from there our fresh chilled salmon are distributed through-out NZ and around the world.

We are looking for suitably qualified Farm Hands/Divers to join a dedicated team growing our premium King Salmon product. This is a great opportunity for someone who loves the outdoors, is passionate about fish farming, working in a team, and is looking to grow their aquaculture career in our beautiful farming location.

This is a full-time permanent position with opportunity for role advancement. Applicants must be either NZ residents or hold a current working visa. The position includes rostered weekend work.

Remuneration is commensurate with experience and preference will be given to candidates who are skippers or divers, and who have previous experience in aquaculture. **For further information or to apply, please contact:**
