

Salmon primary processor (5 - 8.30pm Sun-Wed)

Akaroa Salmon is a vertically integrated company, controlling salmon production, processing, and product distribution.

Our processing factory in Christchurch operates a day shift and a night shift, processing and packing fresh chilled raw and smoked salmon products ready for distribution throughout New Zealand and overseas.

We are looking for motivated and energetic people keen to join our primary processing team. Our harvest from the farm arrives by 5pm Sun – Wed. At this time, you will be required to gut/sort and weigh these fish ready for on-going processing afterwards. Please note that work will go to a minimum of 8.30pm but you will need to be flexible with finishing time as it may be later depending on how many fish need to be processed.

To be considered you will:

- be 100% committed to Health and Safety
- be able to work with continuous processing
- have good time management skills
- have good hand to eye coordination
- be physically able to do some minor lifting
- have good knife skills

Please enquire to:

Factory Manager – Luana Greaney
