

How to Use?

- Make sure you are seated or lying down in a comfortable position
- Connect the controller to the heating pad by inserting the plug-in coupling
- Insert the main plug into the socket and turn on the switch
- Set the sliding ON/OFF switch of the heating pad
- Adjust it to a comfortable temperature setting among Levels 1, 2 and 3. The temperature settings are illuminated when switched on
- After using, turn the sliding switch for OFF and temperature settings to Level "0" (OFF)
- Unplug from the mains, disconnect the controller and store the heating pad safely
