

## How to Use?

- Make sure you order the right size from the Size Chart given below
- For removal of residual powder on the gloves as per user preference, wipe with a sterile wet sponge or sterile wet towel
- Wear the gloves in a proper manner ensuring your hands are covered well up to the wrist
- After use, dispose the gloves carefully treating them as clinical waste. Ideally, use protective thick plastic bags and keep them separate from household waste during disposal

### REMEMBER

- Do not use the gloves if you are allergic to latex
- If any kind of skin irritation or allergic reaction is experienced after using, discontinue use and immediately consult your physician
- Never try to reuse or recycle the gloves. Dispose in a proper, careful manner
- Do not use the gloves while dealing with chemicals or abrasive agents as they do not provide chemical barrier
