SURFACE SOLUTIONS Guarantees that LIZARD GRIP ANTI-SLIP FLOOR & BATHTUB TREATMENT, when applied according to the instructions provided, will raise the Static Coefficient Friction (SCOF) on hard mineral surfaces (Ceramic, Quarry & Porcelain Tile, Marble, Granite, Terrazzo and Cement) to 0.6 or above in almost 90% of the non coated hard mineral natural origin surfaces, the level recommended by the Americans Disabilities Act. Routine cleaning and maintenance to remove grease, oil or other substances is required to maintain the Static Coefficient Friction (SCOF) at the above level.

The Warranty of 5 years is Valid for Residential/Home use only.

Warranty of 1 year only is applicable for use in industrial and commercial areas like malls, public swimming pools, factories, etc.

This Warranty shall only provide for supplying enough LIZARD GRIP ANTI-SLIP FLOOR & BATHTUB TREATMENT SOLUTION at no cost, to re-treat any surface that is found to lose its non-slip effectiveness. This Guarantee shall be void if the SCOF of a treated surface falls below 0.6 due to presence of any foreign substance. It does not cover compensation for injuries or losses due to slip-fall accidents or other direct, indirect or consequential damages resulting from the failure of any treated surface to retain a SCOF of 0.6, regardless of the legal

theory asserted, including negligence and strict liability.

If any LIZARD GRIP product is proved defective, the user's exclusive remedy as regards replacement of the product or refund of the price thereof will be, at the sole discretion of Surface Solutions after deducting all admissible charges. Whether to replace the defective product or to refund the purchase price of the defective product. Except for the replacement or refund remedies, Surface Solutions is not liable for the direct damages or consequential damages, regardless of the legal theory asserted, including negligence and strict liability.

#### NOTE

- This warranty will be void if the treated surface is cleaned using any acidic cleaner post surface treatment.
- This warranty will be void if the treated floor is polished using any substance or machine post treatment.
- This warranty will be valid only if purchased through authorized distributor or retailer.
- This warranty is valid only for genuine LIZARD GRIP Anti Slip Floor Solution.
- All Disputes shall be subject to the Jurisdiction of the Courts at Cuttack.

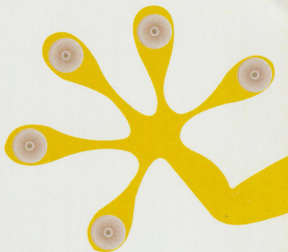

#### MAINTENANCE TIPS

1. Please do not grind the floor, as it will damage the micropore created by Lizard Grip, hence the product will be ineffective, whereas one can do dry buffing with light pad from time to time.

2. Anti Slip Floors are cleaned as normal daily cleaning procedure with non abrasive cleaners only with PH neutral (non-acidic) which will not leave any residue behind on the floor. Scrub the treated floor every fortnight or whenever necessary to free the surface pores from any other contaminants. Do not use wax/polish/crystallization materials as these products will reduce the effectiveness of the LIZARD GRIP Anti Slip Floor Solution. Soap cleaning products, coatings, impregnating products, wax, polymers and crystallization materials have a negative effect on the LIZARD GRIP Anti Slip Floor Treatment.

3. Please do not polish the floor with Wax after LIZARD GRIP Anti Slip Floor Treatment to reduce the floor slipperiness. Wax or polish applied after treatment will make the treated surfaces slippery again and further more prevent the LIZARD GRIP to work properly.

4. LIZARD GRIP Anti Slip Floor Solution does not guarantee you will not slip and fall. Every day, people slip and fall or trip for hundreds of reasons. e.g. Slip and fall & Trip on banana peels, soap bars, spilled food, other hard objects. What we stated here is that after treatment the Surface Coefficient Friction of the surface will increase, thereby your chances of falling on a wet slippery floor will be greatly reduced.
