

ARCH PADS

APPLICATION

- Improves the stability of the foot and prevents arch pain.
- Helps to support the arch, absorb shock, reduce friction and improve overall foot comfort.

DIRECTION FOR USE

Place the ARCH PADS comfortably under the arch, in high heels or ballet shoes.

CAUTION

This silicone material is oil-based, and is safe to wear. This silicone is non-toxic, non-allergenic. Avoid direct contact with open wounds. It is best to replace the product after an extended period of use, as the silicone may harden over time. If you have allergic or sensitive skin, consult with your physician or podiatrist before using the products.

Washing instructions: Hand wash and air dry, then spread with talcum powder. Do not machine dry.
