FA20 DIT Exhaust Manifold

for Subaru WRX 2015+

PRODUCT FEATURES

Tomioka Racing exhaust manifolds are designed to free up exhaust gas flow to improve the performance of the FA20 motor. Its equal length structure ensures the efficiency of the exhaust gas flow, resulting in faster overall spooling of the turbocharger. Constructed from stainless steel and polished to a brilliant finish, this exhaust manifold will make a great addition to your power thirsty 2015+ Subaru WRX. Pair this manifold with our GTX2971 FA20 DIT turbocharger (PN: TR-TS1042) for the ultimate fast spooling bolt on solution.

SPECIFICATIONS

Туре	Equal Length, Twin Scroll
Part Number	TR-ES1020
Material	Stainless Steel SUS304
Application	Subaru WRX 2015+ (VA)
Manifold Spec.	O/D – 44.5mm, Thickness – 2.0mm
Flange Thickness	11.5mm

CONTENT OF KIT

- Exhaust manifold
- Exhaust gaskets
- Turbo gasket
- Hardware kits
