## TR Oil Filler Cap for Subaru EJ20/EJ25

### PRODUCT FEATURES

Now available for the Subaru EJ20/EJ25 engines! The TR Billet Oil Cap not only adds pop to your engine bay, but allows you to safely loosen and tighten the oil cap without burning your hand when adding oil to your engine or performing other maintenance when removing the oil cap. The "gear-like" design helps to get a secure grip for both loosening and tightening the cap. Included with all TR Oil Caps are brand new gaskets to ensure there is absolutely no oil leakage from the filler area. This is a perfect replacement to stock or old and deteriorated oil caps that will last a lifetime.

Available in Blue, Bronze, or Gold.
