

ergonomic solutions | Provita Portable IV Stand

Ergonomics is the science of designing the job, equipment and workplace to fit the worker. Proper ergonomic design is necessary to prevent repetitive strain injuries, which can develop over time and can lead to long-term disability.

Provita Telescopic Portable IV Stand

Unique telescopic portable intravenous stand with a wide variety of applications. Ergonomically designed and engineered, it can be removed from the carry case and set up in just a few seconds.

The 3 feet fold flat and the pole length is telescopically adjusted.

Weighing only 2kg, it is very portable and also reduces the need for large storage spaces.

Suitable for home IV therapy plus its compact size makes it suitable for travel and transport through airports, etc.
