PETRA FLUTED EGG, ETERNAL BRASS STEM

PETRA FLUTED EGG, ETERNAL BRASS STEM

In an evolving exploration of ornamentation, material, and form, the new *Petra Lighting Collection* introduces three new pendants, the *Petra Egg*, *Petra Fluted Egg*, and *Petra Globe* to the *Roman and Williams Guild Original Designs* lighting collection in one profound material: alabaster.

Designed by *Robin Standefer* and *Stephen Alesch*, each new pendant combines familiar vocabularies: the *RWGOD* foundational *Globe Collection's* glass *Egg* and *Globe* shades have been reimagined, now hand-carved in smooth alabaster, a material that has recently captivated the designers (see the undulating shades of the *Rotonde Sconce* and *Dahlia Table Lamp*). Next, the *Petra Fluted Egg's* waved shade recalls alabaster's sea water origins, evoking the beauty of light passing through water—a theme first presented in glass *Seed Pendants* in *Aubergine* and *Opaline* earlier this year.

The new forays into color and flourish aerate the context of the deeply historical material and natural wonder. *Alesch* and *Standefer* join millennia of makers transfixed by the skin-softening glow of illuminated alabaster—believed by ancient Egyptians to possess healing powers. Collapsing centuries within techniques, each shade is a feat of stone carving, hand-shaped by masters in Spain from a solid 12” block of alabaster, carefully selected for its ideal transparency and veining.

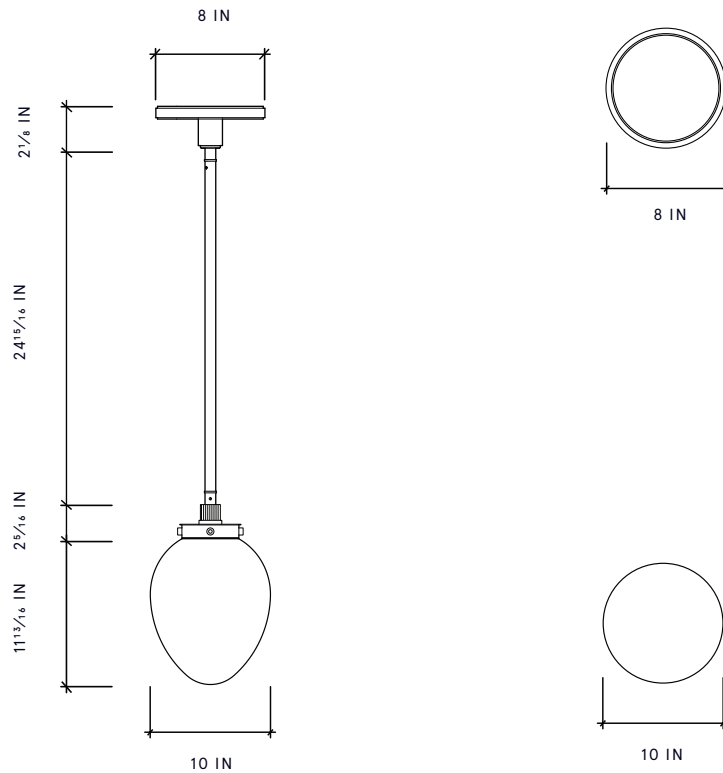

The shade is secured in a 150-year-old French foundry to a hand-spun brass stem by a new fitter that celebrates the functionality of hardware in its details: both the custom thumb screws and coupling are fluted. Radiating with a cumulative power that grows in multiples, the *Petra Lighting Collection* presents a radical vision of pigment and flourish, carefully crafted with heritage techniques that throughout history have never ebbed in beauty.

THE SHADE IS HAND-CARVED FROM A SOLID BLOCK OF ALABASTER BY MASTER CRAFTSMEN IN SPAIN.

ABOUT THE CREATORS

STEPHEN ALESCH & ROBIN STANDEFER

Robin Standefer and *Stephen Alesch* are the founders and principals of *Roman and Williams* and *RW Guild*. They present a radical vision for the home and a way of living that is not just beautiful and luxurious; it is deeply connected to nature, culture, and community. Following in a tradition of makers who create forms, shapes, and ideas, every piece has a story informed by their years of work and study in the fields of architecture, film, fine art, and interior design. Each of *Robin and Stephen's Original Designs* is the product of deep research, exhaustive sourcing, and many stages of hand-drafting, constructing, and prototyping—quality is stubbornly uncompromising. Throughout all stages of production, each piece champions natural materials, and the master craftsmen and artisans who have dedicated their lives to proven, ancient techniques and methods. *RW Guild Original Designs* are about endurance and can be maintained and repaired, every piece a modern heirloom made to last for generations
