STONE SKAFELD COFFEE 57

Get stoned with the next level of evolution in our Skafeld family. Its legs have to be as strong as a horse to hold up your choice of exotic White Macaubas Brazilian Quartzite (with deep indigo and charcoal veins) or Port St. Laurent black marble (with striking orange and white veining). We like to geek out on Quartzite because it's a very hard natural metamorphic rock and St. Laurent because it literally brings with it the mystic vibes of Casablanca.

Also available in an array of woods and finishing, because we're here to encourage your own expression!
