The Angelica Console is now offered with a stone top, blending master woodworking with the finest stone craftsmanship. A range of beautiful stones are available, including honey-hued Giallo Siena marble (pictured), which is quarried in Italy. Each stone is carefully selected for its veining and precisely cut with slightly rounded eased edges. The console's wood base is handcrafted in the Northeast to feature strong mortised joints and curved wood legs, uniting at the bottom with a wood bracket and joined by a wood stretcher. Rounded chamfers soften the edges. The *Console* is offered at 32" high or a lower 28" high, designed to sit seamlessly beside a sofa or chair.

ABOUT THE CREATORS

STEPHEN ALESCH & ROBIN STANDEFER

Robin Standefer and Stephen Alesch are the founders and principals of Roman and Williams and RW Guild. They present a radical vision for the home and a way of living that is not just beautiful and luxurious; it is deeply connected to nature, culture, and community. Following in a tradition of makers who create forms, shapes, and ideas, every piece has a story informed by their years of work and study in the fields of architecture, film, fine art, and interior design. Each of Robin and Stephen's Original Designs is the product of deep research, exhaustive sourcing, and many stages of hand-drafting, constructing, and prototyping—quality is stubbornly uncompromising. Throughout all stages of production, each piece champions natural materials, and the master craftsmen and artisans who have dedicated their lives to proven, ancient techniques and methods. RW Guild Original Designs are about endurance and can be maintained and repaired, every piece a modern heirloom made to last for generations
