THE NAME VIKTØS
IS A DERIVATIVE OF
THE LATIN WORD
INVICTUS MEANING
"UNCONQUERED"

It is our mission to produce innovative gear for the tactical user.

Our product transcends the boundaries of conventional tactical companies and addresses the entire black gun lifestyle; from combat, to training, to R&R. It is a decidedly unique approach

from a decidedly unique brand.

VIKTOS.COM PI

FOOTWEAR

From combat boots, to modern interpretations of go-fast assault mids, the Viktos footwear collection was designed for every aspect of tactical use. With the inclusion of multiple waterproof styles, combat-casual crossovers, and function training models, the modern warrior will find unique footwear that will support their specific mission.

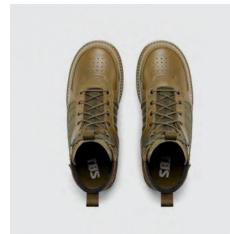

VIKTOS.COM

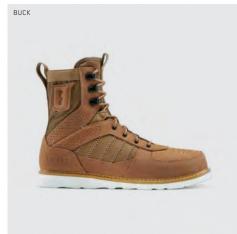

\$180 1911[™] BOOT

WORK & DUTY

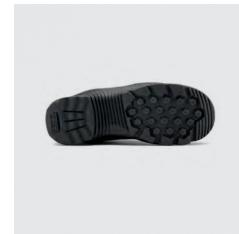

Occupying the space between work and duty, the 1911 boot pushes the boundaries of conventional tactical footwear. The 1911 boot is built on a robust Vibram Christy outsole and features an upper of premium leather. The fit and function is a direct take-down from our combat oriented Strife boot, complete with Parariggers sidewall for lateral support.

- PREMIUM DRUM-DYED LEATHER UPPER
- 600D NYLON PANELING
- POLISHABLE HEEL & TOE (IN NIGHTFJALL)
- VIBRAM® CHRISTY OUTSOLE
- PARARIGGERS™ SIDEWALL
- CUSTOM METAL HARDWARE
- U.S. VETERAN DESIGNED & DEVELOPED
- 1-YEAR WORKMANSHIP & MATERIALS WARRANTY

\$180 LAW DOG™ WATERPROOF BOOT

BLUE LINES, BLACK BOOTS

The Law Dog was engineered for the needs of elite LEO and First Responders. The chassis is constructed of full grain leather for durability and features a polishable heel & toe. Internally it features a waterproof/breathable membrane and slightly wider forefoot allowing for toe spread under heavy duty loads. The bottom unit uses a shock absorbing foam and a multi-durometer rubber outsole for both grip and durability. Squared toe hold front, multi-directional tread, and fast rope cleating complete the outsole architecture.

- FULL GRAIN LEATHER CHASSIS
- WATERPROOF/BREATHABLE
- POLISHABLE HEEL & TOE
- BLOOD-BORNE PATHOGEN RESISTANT
- NON-SNAG HEEL PULL
- REINFORCED TOE BOX
- STRIFE™ WARFIGHTER BOTTOM UNIT

\$140 STRIFE™ MID WATERPROOF BOOT

MULTI-THEATRE MIDS

Built on our vetted Strife bottom unit, the Strife Mid Waterproof features a leather & nylon upper with a waterproof/breathable lining. With a 6" height it is perfect for daily wear, in both operational and casual applications. The bottom unit consists of the same combat focused outsole used on our Strife boot, for excellent outdoor traction & durability.

\$110 JOHNNY COMBAT OPS™ BOOT

BATTLE DRESS MIDS

You're high-speed. A stripped-down minimalist headed outside the wire with just enough...and not an ounce more. You demand the same from your kit. The JOHNNY COMBAT™ understands your prerogatives, and is a willing accomplice. The upper is comprised of a nylon/synthetic combo for support without the weight. The bottom unit is a field tested, no-quarter heartbreaker ready for multi-condition threats.

\$125 PTXF™ CHUKKA

LIGHT-DUTY TRAINERS

Unique silhouettes and unconventional methods are the hallmark of the Viktos design ethos. The PTXF Chukka is a prime example of these ideals with its premium leather upper mated to our PTXF Core bottom unit. The Chukka is further enhanced with a full interior neoprene bootie. The result is a water-resistant crossover, perfect for light duty operational use or mixed mission casual applications.

- PREMIUM DRUM-DYED LEATHER CHASSIS
- WATER-RESISTANT INTERNAL NEOPRENE BOOTIE
- MOBILITY BOTTOM UNIT FOR TRACTION AND STABILITY
- HIGH VOLUME FOREFOOT FOR FOOT SPLAY UNDER LOAD
- FITNESS TRAINING FOCUSED 4MM HEEL TO TOE DROP
- U.S. VETERAN DESIGNED & DEVELOPED

\$100 PTXF CORE2™ SHOE

GRACE UNDER PRESSURE

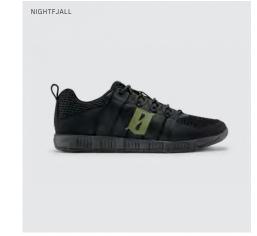

The PTXF Core2 is back like a preseason two-a-day. Featuring an engineered mesh upper, it balances the requirements of support, breathability, and minimized weight. Reinforced synthetic overlays provide additional durability in primary wear areas while increasing lateral stability. The overall forefoot volume is slightly reduced from the first-gen Core shoe to cradle the foot during heavy lifts, while still allowing ample splay. The bottom unit is engineered for maximum stability and traction, with enough cushioning for daily cardio use. Much like its predecessor, the only activity the PTXF Core2 shoe won't do is take a knee.

- LIGHTWEIGHT, BREATHABLE MESH CHASSIS
- SYNTHETIC LEATHER OVERLAYS FOR DURABILITY
- MOBILITY BOTTOM UNIT FOR TRACTION, CUSHIONING, AND STABILITY
- MID VOLUME FOREFOOT FOR FOOT SPLAY UNDER LOAD
- FITNESS TRAINING FOCUSED 4MM HEEL TO TOE DROP
- U.S. VETERAN DESIGNED & DEVELOPED

\$100 PTXF CORE™ SHOE

NEVER LET ANYONE OUT TRAIN YOU

Straight from the riggers room comes our inaugural entry into the fitness foray, the PTXF Core shoe. Built with the same techniques as top-line plate carriers, the upper blends lightweight mesh with reinforced synthetic overlays, all providing the ultimate grace under pressure. A wide forefoot allows foot splay under the crushing weight of your hero lift, while our Parariggers sidewall wraps provide lateral support when the prescribed event goes sideways. The undercarriage is built on the Viktos Mobility bottom, engineered for maximum stability and traction, with just enough cushioning to blast out some quick cardio. In fact, the only activity the PTXF Core shoe won't do is take a knee.

SANDALS

The weather may get hot, but that's no excuse to reduce your tactical footprint. From the outset, we've recognized that 'tactical' is a lifestyle that doesn't stop just because you've left the battlefield. The Viktos Sandal collection spans the range of options from the leather wrapped 1911 to the shower-shoe ready Chuvilles.

PG. 12 VIKTOS.COM

\$85 1911™ SANDAL

TRAIN HARD, RELAX HARDER

When it comes to pistols, the world is your oyster. Polymer frames, obscure calibers, and integrated space blaster lasers make for serious tacticool spank bank material. But no pistol carries the presence of the 1911. With one hundred years under its art deco silhouette and iconic palm swells, it's still the premier warfighters sidearm. The Viktos 1911 pays homage to this legendary stature with the finest build quality and materials available. A full-grain leather wrapped footbed cradles your foot in a premium operating envelope while considered footstrap geometry provides an all-day ride capable sandal. You've put a premium pistol on your hip, now put a premium sandal on your foot.

\$65 RUCK RECOVERY™ SANDAL

RECOVER FROM YOUR RUCK, QUICKER

40 clicks of hump and pump can wreak havoc on your feet. Flattened arches, stressed joints, and five little piggies that want to get back home. The Ruck Recovery sandal is the perfect post-ruck medicine for your tired dogs. The footbed features sculpted geometry to relieve and revitalize your strained ligaments and tendons. It incorporates a heat activated footbed—just pop it in the oven for for a few minutes, step into the sandal and it custom molds to your individual foot shape. Combine this with a slightly dropped heel to gently stretch out your achilles—if there is something more comfortable in this world, we've never stepped in it.

\$25 CHUVILLE™ TREADNAUGHT SANDAL

FORGIVE OUR TRESPASSES

Viktos doesn't exist to solve the world's problems, but we can help your feet cope – at least with the nasty floors you find on your daily hump. Whether it's your local gym locker room, or a containerized housing unit deep in the suck, you need to protect yourself from what lies underfoot. The Chuville sandal is our up-armored solution to the fungal jungle. It puts a premium cut & buff EVA foam between you and the undesirable, while the lugged rubber bottom provides necessary wet-traction.

\$500 ACTUAL™ JACKET

EVERY SUPERHERO NEEDS A CAPE

With the Viktos Actual jacket, we set out to create the most exclusive tactical jacket ever produced. We started with a premium drum-dyed cowhide, known for its natural durability and breathability. To this, we added an exterior waterproofing treatment and lined the jacket with a 3-Layer waterproof/breathable lining. The chassis features our AttackPosture fit with full articulation for getting in and out of the most aggressive shooting postures. Multiple exterior and interior pocketing holds your kit, while Gunvent side zippers allow quick access to sidearms. Whether your mission calls for a night on the town or a night in the bush, the Viktos Actual jacket will keep you fit for duty.

\$240 KRUGER™ JACKET

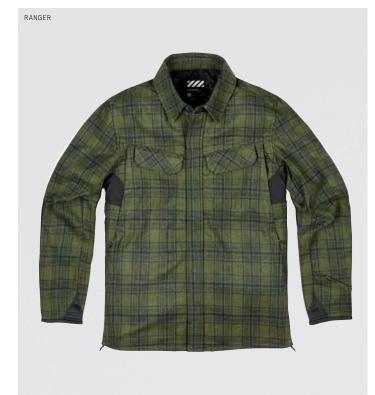

HALF JACKET, HALF HOODIE, TOTALLY TACTICAL

Standing out while blending in, The Kruger Jacket is a heavyweight jacket ready for whatever Mother Nature has in store. The chassis is comprised of a water-resistant treated poly/wool blend fleece, perfect for warmth and shrugging off light rain. Quickdraw Gunvents and zippered chest pockets allow access to kit when worn with a plate carrier. The oversized hood, with webbing cinch pairs for cover and concealment-you from them, or them from you. Four interior pockets, with additional comm routing ports, provide for a myriad of EDC storage options.

\$150 CONTRACTOR AF™ JACKET

BLEND IN, KITTED OUT

Covered in beard and jaded grey persona, you've got a new mission. Gone are the youthful desires for ribbons and patriotic accolades, replaced by the very real need to provide. Skillsets honed in the crucible of conflict, now repurposed for the needs of less political causes. The Contractor AF jacket is built for this new mission - greyman appearance to blend in, black gun features to do dirt. Constructed from a proprietary stretch Cotton chassis, it features articulated back panels and Dupont[™] Teflon[®] coating to ensure operational effectiveness. Unique Gunvent sidearm access, a multitude of zippered pocketing, and interior carry pockets combine for effectiveness in the face of reality.

\$150 ZERODARK™ INSULATED JACKET

OPERATOR GONNA INSULATE

The Zerodark insulated jacket is a multi-mission performer. Providing both insulated layering for alpine duty or used as a solo garment in late night border raids, the Zerodark packs a heavyweight punch in a featherweight package. Sidearm access vents, reinforced elbows, and stowable hood allows the wearer to speak tacticalese, without saying a word. Packable, water-resistant, and warm enough to eliminate the need for hypothermic buddy-to-buddy contact. Unless you're into that sort of thing.

\$140 CONTRACTOR AF™ PANT

COMBAT-ZONE DRESS CODE COMPLIANT

You came of age in MARPATs, ACUs, and OCPs. Bedazzled in eccentric patterns of greens and tans, you were splendid in your soldier boy style. But your days of government-ordered deployments are over. Though the required skillset is the same, the next mission is quite different. The Contractor AF pants are built for your new employer's dress code. Low-key pocketing and patterning still provide all the black gun needs of a seasoned vet, but are revisioned in a low-optic chassis. Proprietary stretch cotton material with DuPont™ Teflon® coating is built as tough and rugged as the men who wear them. If you operate in one set of trousers for weeks on end make sure they're Contractor AF.

SHORTS

Viktos approaches our short collection with conviction and enthusiasm.

We love shorts as much as we love living every tenet of a black arms lifestyle.

Our short collection reflects this with unique silhouettes, quality materials, and integration of tactical features to elevate your mission readiness.

VIKTOS.COM

\$100 JOHNNY COMBAT™ SHORT

HALF IN LENGTH, FULL IN FIGHT

With the Johnny Combat short we set out to create the most 'combat' cargo short ever. While no one would intentionally go into harms way with only half a pant, we'd like to think the Johnny Combat would be up to the challenge if asked. At the very least it makes for the ultimate hot-weather tactical option for a rugged range day or training session. Built of a combat grade stretch cotton/nylon, it's patterned for action and pocketed for a full compliment of EDC. Specifically it's low-profile cargo pocketing includes internal sleeves to securely hold up to four 30rd AR type magazines, while a padded waistband, with oversized belt loops, takes the bite out of heavy war belts.

\$50 PTXF GYMSWYM™ BOARDSHORTS

FROM THE BOX TO THE BEACH

Built from a 4-way stretch poly chassis, the PTXF Gymswym boardshorts are perfect for the modern warrior's mixed mission lifestyle. Mornings at the gym, followed by afternoons at the beach, these shorts do it all without complaint. The custom alloy G-hook closure and Velcro® fly, keep things contained through the most strenuous beach break or burpee session. The two zippered pockets ensure your EDC stays on you, instead of on the deck.

- QUICK DRYING 4-WAY STRETCH CHASSIS
- 90% POLYESTER / 10% SPANDEX
- 23" OUTSEAM
- ALLOY G-HOOK WAIST CLOSURE

\$40 CHUVILLE™ FLEECE SHORT

FLEECED UP FROM THE KNEE UP

No modern warfighter's wardrobe is complete without a set of cutoff sweats. We took the guesswork out of this tailoring and created a fleece masterpiece. The Chuville shorts are built from a french terry fleece chassis and equipped with just enough tactical to stay frosty. Perfect for a punishing session at your local box, or virtual operating in a video battlefield. Either way, the Chuville shorts will keep you cool while keeping your junk fleecy warm.

VIKTØS°

\$200-220 KADRE™ BACKPACK

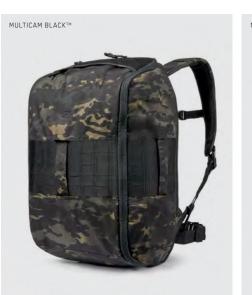

THE ULTIMATE GO BAG

The design premise for the Kadre bag was to create the ultimate go bag - one bag to carry a full cache worth of guns, gear, and ammo. The backpack needed to be tough as hell, provide modular mounting options, accept full-size rifles & pistols, support loads of ammo, and still, present a low-vis optic for carry in urban areas. Functionally it needed to be tactical AF without reading like every overtly-tactical bag on the market. It also needed to be at home in the back of a pickup or being rucked to a primitive bugout site. The Kadre is our solution. It is capable of storing rifles up to 35" in length with barrel extension shroud. The rifle can be lashed to the vertical Velcro Molle with the included dual-side Velcro straps for secure carry. An internal frame sheet provides both support for the weight of the rifle and also a barrier between wearer and bag contents. Two interior padded pistol pockets fit a full-size with room for extra magazines. The inner flap is equipped with an integrated compression sack for apparel, providing quick access, and segmenting your softgoods within the main compartment. Externally the Cordura chassis has five rows of butted Molle perfect for attaching accessories, such as the Triple S Dopp Kit for additional storage (sold separately). Quick access exterior main pocket fits up to four AR magazines, with secondary interior pocket for eyeglasses and key lanyard. The bag features a large field of loop Velcro for badging. A top-mounted water-resistant zipper secures a quick-access travel pocket - perfect for your digital carry, passport or wallet. The YKK zippered rear compartment houses a quick-access padded 15" laptop sleeve and a multitude of admin pocketing. A hydration bladder pocket accepts up to a 3-Liter bladder, complete with hose access port and routing. Padded backpack shoulder straps are stowable to keep the bag completely clean of snag hazards. Dual webbing straps on the back of the Kadre allow it to be placed onto the handle of most wheeled luggage. Whether your range is a five-star VIP bunker or a primitive flat-site, the Kadre will ruck all your essentials. Overall dimensions 21" H x 13" W x 9" D.

- OVERALL DIMENSIONS 21" H X 13" W X 9" D
- 45 LITER VOLUME
- WEATHER-RESISTANT 600D CORDURA® CHASSIS WITH DWR COATING (RANGER/NIGHTFJALL)

\$60-65 UPSCALE™ SLING BAG

MINIMALIST CONCEALED CARRY AND EDC

PRICE \$60 \$60 \$65

Larger than a chest slung fanny pack, but smaller than current tactical slingbags, the Upscale CCW Slingbag Bag was designed for your minimalist concealed carry and EDC needs. The CCW compartment will fit up to full-size pistol in the included universal Velcro holster, or switch it out for your preferred holster. The ambidextrous sling and CCW access compartment allow easy pistol access when worn on either side of the body. The main compartment features elastic webbing and internal cargo pocket, perfect for holding extra magazines, tourniquet, and medkit (if you carry a pistol, you should also carry these). The padded upper compartment is fit for eyeglasses, with a small loop Velcro panel for moral enhancers. The Upscale can also serve double-duty with its rear Molle panel, allowing it to be attached to a plate carrier or other bag. In this configuration, the CCW compartment is capable of holding a 1.5-liter hydration bladder. Overall dimensions 15" H x 7" W x 4" D.

- OVERALL DIMENSIONS 15" H X 7" W X 4" D
- 600D CORDURA® CHASSIS (RANGER/NIGHFJALL)

GLOVES

Viktos takes great pride in our glove collection. With vast years of experience in glove design, our team has set forth to create a compelling line of handwear specifically built for black gun use. From the light-duty Operatus, perfect for pistol use, to the operator-proven chassis of the Longshot.

VIKTUS

\$100 LONGSHOT™ GLOVE

OPERATE LIKE A HOSS

While the Nomex® chassis may look conventional, closer examination reveals the Longshot is not a typical flight glove. The integrated polymer knuckle provides fist-bumping armor, perfect for the modern hi-speed operator. Tactical seaming gives the chassis a precurve for both flex and reduction of bulk. The Longshot features a proprietary two-piece backhand design which provides full coverage, but allows for exposure of a watch or compass. On the palm side, the Longshot is comprised of Digihide goatskin, chosen for it's balance of dexterity and durability. It also features touchscreen compatible trigger finger & thumb allowing for digital device manipulation. Integrated loop knuckle pads allow attachment of cleverly dictated Moralphabet letters.

\$75 SHORTSHOT™ GLOVE

SHORT IN LENGTH, LONG IN FIGHT

Long cuff Nomex® gloves have their place, but sometimes the mission requires the bare minimums. The Shortshot provides the same features as the Longshot but in a wrist length package. The integrated polymer knuckle provides armored coverage perfect for the modern hi-speed operator. Tactical seaming gives the chassis a precurve for both flex and reduction of bulk. On the palm side, the Shortshot is comprised of DigiHide goatskin, chosen for it's balance of dexterity and durability. It also features touch-screen compatible trigger finger & thumb allowing for digital device manipulation. Integrated loop knuckle pads allow for Moralphabet haiku.

\$35 WARTORN™ GLOVE

GLOVES BUILT FOR GUNS

The range is littered with would be tactical gloves that have failed to live up to a weekend of training. Blown seams, shredded palms, failed fingers all tell a sad tale of handwear woe. The Wartorn glove was designed to overcome these points of failure while adding additional functionality. The thumb valleys are reinforced with Combative leather to defeat the aggressive checkering of modern polymer handguns. Reinforced fourchettes on the trigger and middle finger prevent premature gusset failure. Silicone printing on all fingers provide increased grip on slides, while the trigger finger and thumb are touchscreen compatible. A full sized polymer knuckle provides backhand coverage while segmented finger knuckles allow for increased flexibility. The integrated loop knuckle pads allow attachment of Moralphabet letters, so you can sound off without ever saying a word.

\$75 CHUVILLE™ FLEECE HOODIE

COMBAT CASUAL CROSSOVER

The ultimate companion for most of the year, the Chuville hoodie will keep you warm & cuddly even in the most cold & hostile environments. It features a cotton/poly fleece blend selected for its refined fit and rugged jawline. Exterior pockets, with mil-spec grade webbed trim, give ample room for cold hands, while the internal mesh cargo pockets provide spacious room for cargo. Put it on and say hello to your new bestest battle buddy.

MEN'S SIZING

Use the chart to the right to determine your size. If you're borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit.

CHEST: Measure under the arms around the fullest part of chest.

WAIST: Measure around the narrowest part (typically the small of your back and where your body bends side to side).

HAND: Measure around your dominant hand with a tape measure at the widest point (typically just below the knuckles).

MEN'S				
SIZE	CHEST	WAIST	HAND	
S	37-39″	29-31″	5.5-6.5"	
М	38-40"	31-33″	6.5-7.5"	
L	41-43"	33-35″	7.5-8.5"	
XL	43-45"	35-37″	8.5-9.5"	
2XL	45-47″	37-39″	9.5-10.5"	
ЗXL	47-49"	39-41"		

WOMEN'S SIZING

Use the chart to the right to determine your size. If you're borderline between two sizes, order the smaller size for a tighter fit or the larger size for a looser fit.

BUST: Measure under the arms around the fullest part, across bust points.

WAIST: Measure around the narrowest part (typically the small of your back and where your body bends side to side).

WOMEN'S SIZE	NUMERIC	BUST	WAIST
xs		30.5-33"	22-25"
S	3-5	33-35″	25-27"
M	7-9	35-37"	27-29"
L	11-13	37-39"	29-31"
XL	15	39-41"	31-33"
