

# SuperStar™ Windshield Repair System

20SYS

\$505

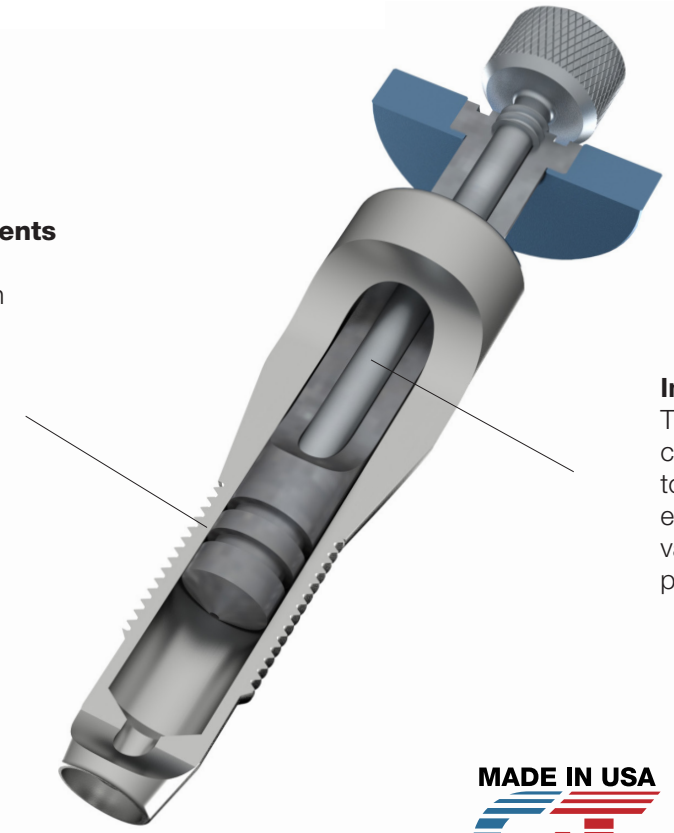

Engineered with simplicity in mind, the SuperStar™ is a great introductory kit that utilizes the same stainless steel materials and limited lifetime warranty as our Spectrum™. Without sacrificing quality the SuperStar™ is one of the easiest injectors to operate.

**SuperStar™ Kit Contents**  
The SuperStar™ is equipped with enough supplies to produce over 150 repairs! It's packaged with one injector, GT Tools® 12 volt UV lamp, and all the additional tools needed to produce industry leading results.

**Stainless Steel Injector Components**  
Backed by a limited lifetime warranty, the SuperStar™ injectors are precision machined using 304 stainless steel materials that are designed to provide decades of reliability.

**Unique Bridge Design**  
The SuperStar™ incorporates an easy mount bridge system. This flip tab design effortlessly mounts the tool to the glass while offering fine tuned adjustments for the injector.

**Injector Design**  
The SuperStar™ injector components are engineered to allow a specialist to equalize and adjust between vacuum and pressure, producing a superior repair.
