

GT Tools® Slick H¹ Blades

GT Tools® Serrated H² Blades

GT Tools® Slick H¹ blades have lubrication dimple points for smoother cutting. These blades are designed to work with GT.357, GT.38 Special, GT.44, and GT.45 reciprocating auto glass cut out tools, as well as other industry recognized reciprocating tools.

MADE IN USA

3" X 10" Slick H¹ Sheath Blade

AGKH1BS3X10

\$42

Ideal for vertical windshields with short length dashes that require less reach to access the urethane. Offers great rigidity and control.

3" X 12" Slick H¹ Sheath Blade

AGKH1BS3X12

\$42

Ideal for sloped windshields with medium length dashes that require more reach to access the urethane. Our most versatile blade.

3" X 14" Slick H¹ Sheath Blade

AGKH1BS3X14

\$47

Ideal for cab forward designed vehicles with wide dashes that require an extended reach to access the urethane. Ideal for new model vehicles.
