

GT Tools® GT.44 20V Lithium Ion
 AGRKDW380
\$720

GT Tools® GT.44 powerful 20V 5Ah Lithium Ion reciprocating auto glass cutting tool is a workhorse for any mobile or in-shop application. Engineered, designed and built from its 18V cousin, this 20V tool packs a punch.

Auto Glass Removal Workhorse

This powerhouse cuts urethane at 3,000 strokes per minute and offers long run time and battery life! Engineered with a reinforced housing to resist tool wear.

Universal Protective Blade Sheath

Compatible with all GT Tools® and other industry recognized late model sheath blades. Scratch resistant cover prevents unwanted scratching on the vehicle interior.

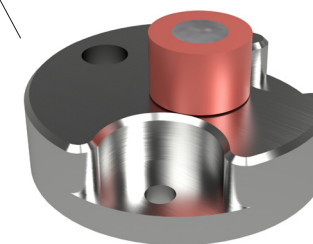

Industry-Leading Sheath Blades

A high carbon spring steel shank and precision-milled edges cut urethane like butter without deforming. The GT.44 ships with (1) GT Tools® 3"x12" Sheath blade.

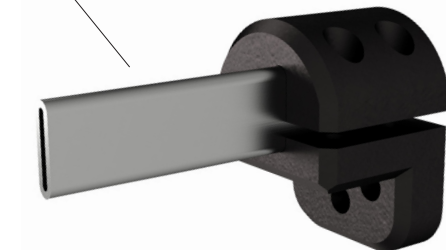

Quick-Release Blade Swap System

Effortlessly switch between different GT Tools® Sheath Blades

Bombproof Engineering

GT Tools® manufacturing process uses in-house CNC machined High-Carbon Steel Cam and Eccentric Disc for a smoother reciprocating motion.

Aircraft-Grade Sheath Clamp

6061-T6 Billet Aluminum milled sheath clamp on the GT.44 is engineered to take the daily abuse of auto glass removal. The long-lasting sheath is fabricated out of thick-walled seamless, stainless steel.
