

GT.38 Special 20V Lithium Ion

AGRKDW387
\$750

This new 20V 5Ah Lithium Ion reciprocating auto glass cutting tool incorporates the latest advancements and is a first for the industry. The GT.38 Special has been engineered for weight, durability, power, and battery life that is sure to increase productivity and decrease fatigue.

Compact Profile for Tight Spaces

The .38 Special's short profile is ergonomically designed to offer more controlled cutting along the "A" pillar and dash. Because of its short design some auto glass specialists even report smooth headliner cuts!

Universal Protective Blade Sheath

Compatible with all GT Tools® and other industry recognized late model sheath blades. Scratch resistant cover prevents unwanted scratching on the vehicle interior.

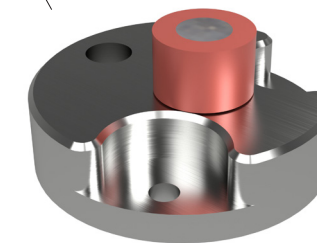

Industry-Leading Sheath Blades

A high carbon spring steel shank and precision-milled edges cut urethane like butter without deforming. The GT.38 ships with (1) GT Tools® 3"x12" Sheath blade.

Quick-Release Blade Swap System

Effortlessly switch between different GT Tools® Sheath Blades

Powerful 20-Volt 5Ah Lithium Ion Battery Platform

No memory and virtually no self-discharge for maximum productivity and less downtime. Battery and Charger included in kit. Compatible with our 20V Caulking Gun for seamless transition between cut-out and install.

Bombproof Engineering

GT Tools® manufacturing process uses in-house CNC machined High-Carbon Steel Cam and Eccentric Disc for a smoother reciprocating motion.

Aircraft-Grade Sheath Clamp

6061-T6 Billet Aluminum milled sheath clamp on the GT.38 is engineered to take the daily abuse of auto glass removal. The long-lasting sheath is fabricated out of thick-walled seamless, stainless steel.
