

Stripper™ Cord and Wire Auto Glass Cutting System

AGWCS

\$495

The Stripper™ was simply designed on the principles of making it easier for the specialist to cut out auto glass, while reducing potential damage to the vehicle. A simple, easy to use solution at an affordable price.

GT Tools® Anchor Stop
AGWCAC
\$37

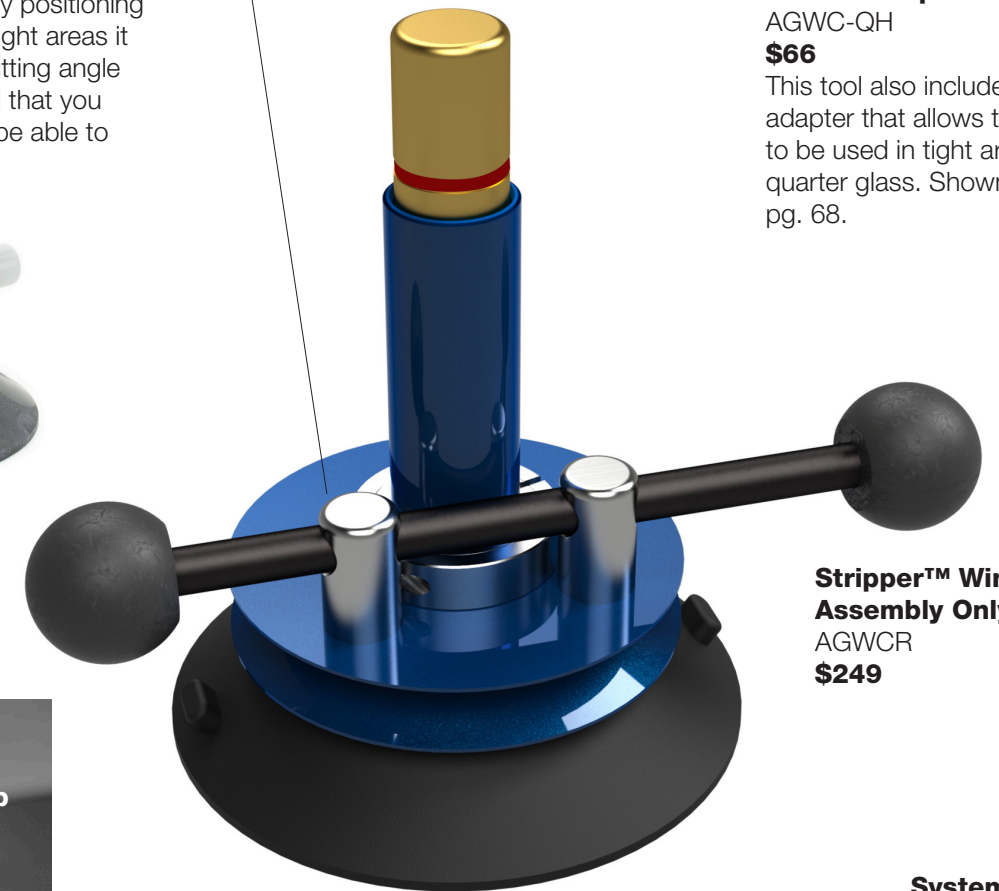

Stripper™ Pulley Assembly
AGWCP
\$145

The Stripper™ Pulley Assembly can be positioned in corners and tight areas where your current device cannot go. By positioning this pulley in those tight areas it can offer a better cutting angle for your wire or cord that you wouldn't otherwise be able to achieve.

Precision Machined Components
The Stripper™ winding hub was designed and manufactured using 6061 aluminum with a hardened anodized finish. The tools small diameter hub allows for maximum torque when cutting.

Stripper™ Winding Assembly Only
AGWCR
\$249

Quarter Glass Handle Adapter
AGWC-QH
\$66

This tool also includes a handle adapter that allows the Stripper™ to be used in tight areas such as quarter glass. Shown in use on pg. 68.

System Contents
Stripper™ Winding Hub, Stripper Pulley, T-Handle, Small Guide Shield, Gorilla Cord 250ft, ZipLine 300ft, RZR Wire 200 ft, Stripper™ Quarter Glass Handle, Anchor Stop, Case, Product Manual
