INTELLIGENT CHIP

NutTAG's patent European chip harnesses a learning algorithm which adapts to your environment and usage. The easy to use smart phone application updates the NutTAG monthly with learned software and security features. This adaptable and uniquely scalable engineering is a breakthrough for wearable technology in 2019.

Further exclusive NutTAG technology and advanced functionality include; geo-fence feature, real-time GPS tracking for friends, four week historical GPS footprints, one year battery life (and learning!), huge 60 meter range, separation alert on phone app and Tracker.

“THE MOST ADVANCED TRACKING
TECHNOLOGY FOR 2019”

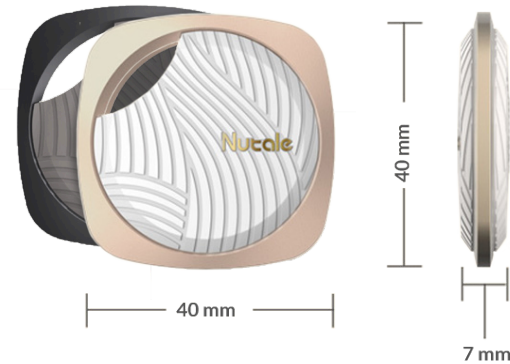

*All the extra features with
NO monthly costs*

KEY FEATURES

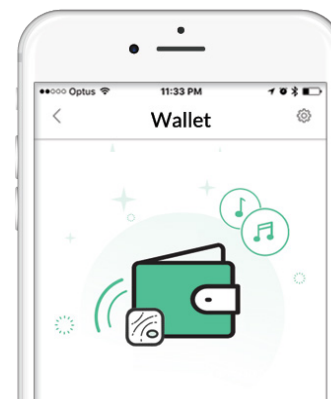

SEPARATION ALERT

Alarm sounds on both phone and tagged item when separated.

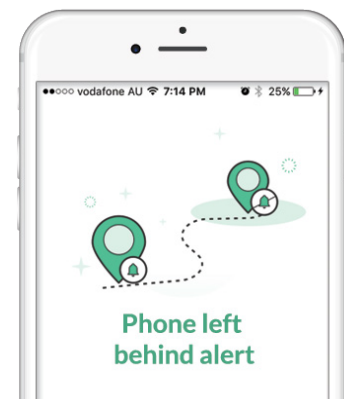

LOCATE BY MAP

The app automatically remembers the last time and place it was close to your item, so you know where you left it.

LOCATE BY SOUND

Ring lost items from your phone. NutTAG will play a loud tune until you find it.

FIND YOUR PHONE

Double press any one of your NutTAGs to make your lost phone ring, even on silent.

GPS track friends in real-time, 4 weeks historical GPS footprint, Geo-Fence security zone, WeChat integration and much more...

NUT APP FUNCTIONALITY

Smart Anti-Loss:

If the NutTAG is out of the safety range, your phone app will notify you.

Two Way Alert:

When the phone is left behind and out of safety range, NutTAG and your phone will each beep to notify you.

One Touch Find:

Call your NutTAG by pressing the button on the app, NutTAG will then beep so you can find it.

Location Record:

Nut App will show you the location where and when NutTAG was disconnected on the map.

Anti-loss Mode:

Use anti-loss mode for items which you need to take with you each day.

Find-it Mode:

Use find-it mode for items which are difficult to find and need others to join the search.

Group Share:

If the paired NutTAG needs to be found by others, tap the “share” button to activate group control.

Silent Zone:

Set the Silent Region to disable phone and NutTAG alerts within selected zone.

Interim Silent Mode:

Set Interim Silent Mode to disable alerts from your phone and NutTAG within selected times. Great for the work place!

Silent Period:

You can set as many Silent Periods as required this will disable alerts from both NutTAG and phone within the Silent Period. Great for home!

Lost & Found Network:

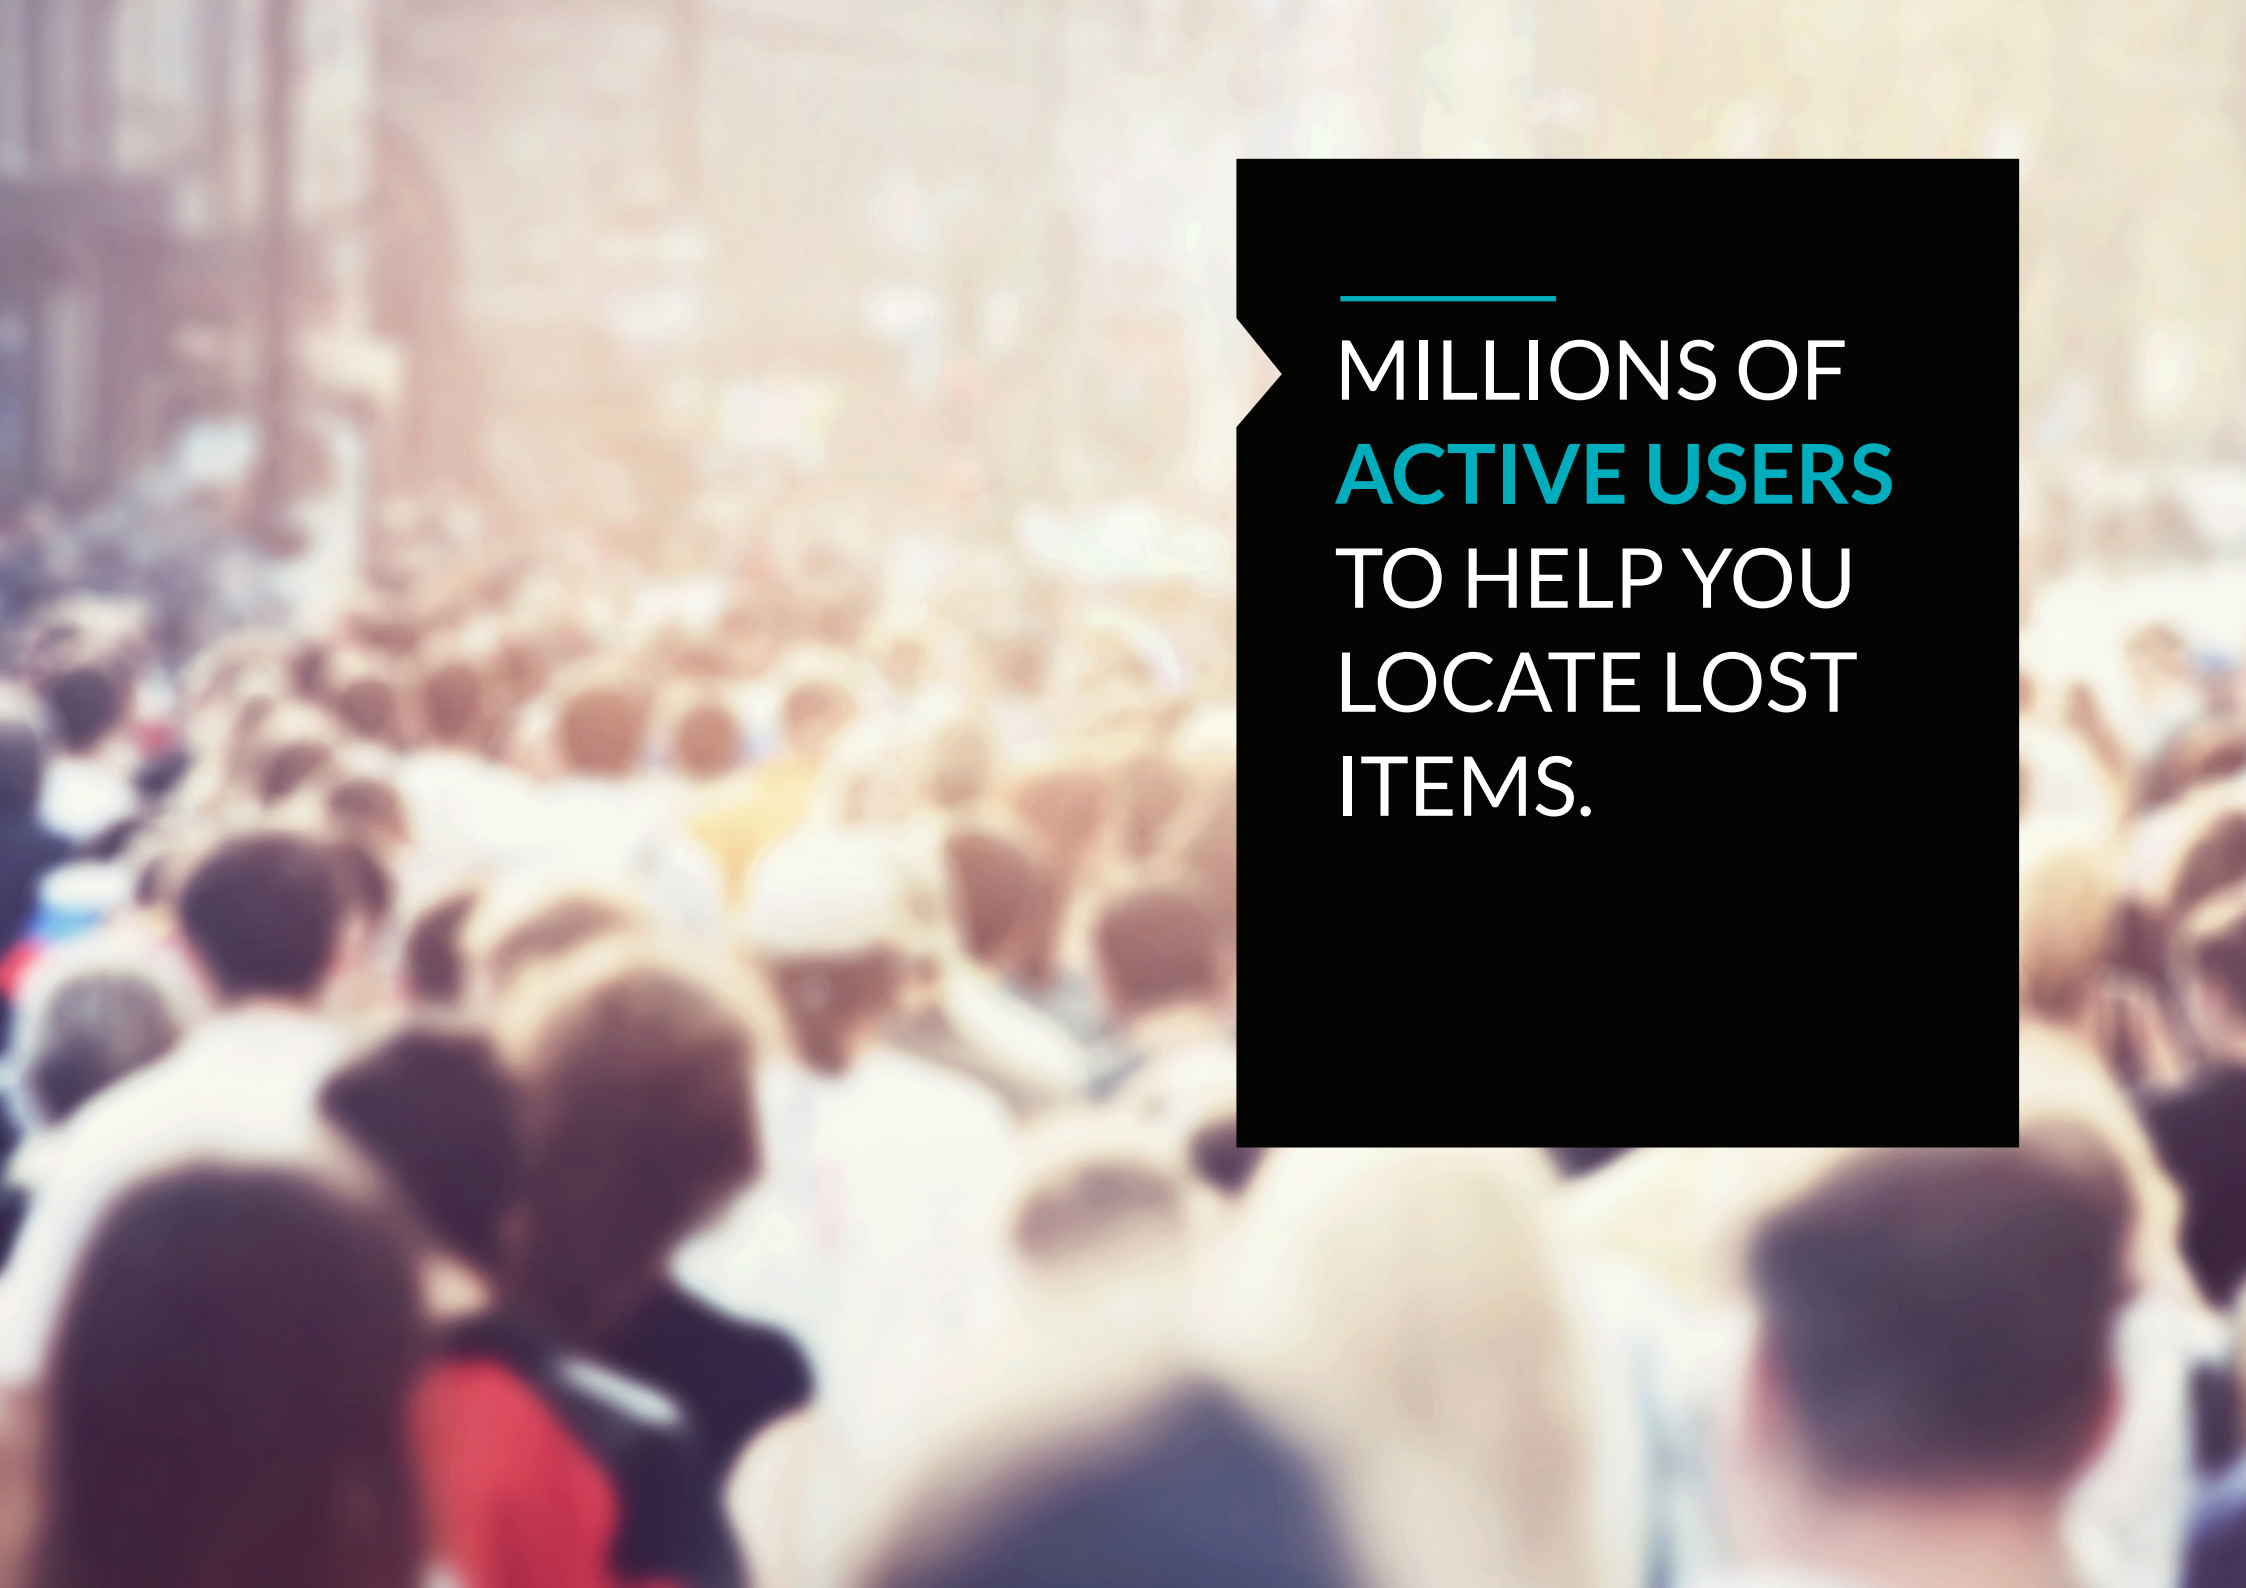

Declare your NutTAGs lost and millions of active apps will search for your lost item. When your item is found, you will be notified of the location of where it has been found. All steps are executed using 128 bit encryption and total privacy. Item location updates are only shared with the NutTAG owner.

Locate Friends GPS:

Add your friends and family within app and see their location in real-time.

GPS Historical 4 week footprint:

Trace friends historical footprint up to 4 weeks into the past and see their history of foot steps on the map.

HAPPY CUSTOMERS

Check out what our costumers think

Jane Tan - Keys

Love my Focus it looks great! I take it out with me everywhere. Just knowing if I leave my keys somewhere I can always find them with the app makes me so much more relaxed, love it :P

Daniel King - Wallet

Very pleased with the presentation and the apparent quality of the product. It was a gift and was extremely well received. I have heard it has saved a wallet on a few occasions.

Deborah Noble - Bag

Is really helpful. Already used the find options multiple times. It's a good idea to protect the valuables for a small fraction of amount!
