

NUTTAG

NEXT-GEN PETS TRACKER

Spot GPS Pet Tracker

Spot is packed with the latest technology, allowing you to track your pet's location anytime, anywhere. 4G, wifi, Bluetooth and GPS means you will get the best accuracy. Define a safe zone around your home and instantly receive text, app or email alerts when your pet enters or exits that zone.

4G LTE Connectivity:

Support various 4G bands, it will fall back to 3G/2G when there is no 4G coverage.

Long Battery Life:

Depending on usage, the battery lasts up 1 to 7 days.

Small, Light & Waterproof:

Small size and weight just 30 grams, follow the IPX7 waterproof standard.

Geofences & Alerts:

Set multiple Geofences and receive alerts as a device enters or exits a particular area.

Live Tracking:

With GPS LIVE Tracking, you can see the exact position of your pet.

Tracking APP:

Spot Tracker connects to your NutTAG GPS app. This is where you control and manage your device.

Activity Monitoring:

Use Activity Tracking to easily find out if your pet is getting enough exercise. Track your pet's daily activities in one simple view.

Home Wi-Fi and Beacon:

The home Wi-Fi and beacons provide at home / out of home information in addition to optimizing tracker's battery life, as well as receive alerts

Collar

Pets GPS FAQ's

Q: What should I look for in a GPS?

A: Although there are many features on a GPS device there are a core group which should be observed as a baseline, they are; battery life, tracking accuracy, data security, cell network certifications and the application used to access GPS should meet highest usability and accessibility standards.

Q: What are the costs?

A: The only cost to you is the upfront cost of the watch, we have NO ongoing charges or fees.

Q: Are there any contracts?

A: NutTAG do not create contractual agreements on any products. Once you purchase your devices its yours, and will continue to work.

Q: Are there any subscriptions?

A: No. we don't believe in subscriptions to use our software, it will always be free.

Q: Do I need a SIM?

A: Yes, you will need a SIM for your device to work. The SIM will need text, call and data. If you have only a data SIM, we can make this work—contact support for further information.

Q: International roaming?

A: As long as your SIM supports international travel so will your device. – Speak with our customer care team to learn more.

Q: How long will the battery last?

A: The device was designed with battery life in mind. Battery life is influenced by several factors, such as cellular coverage, GPS availability, temperature and your device's activity level. Depending on usage, mode and environmental factors battery life is generally one day. The battery can then be completely re-charged within two hours.

Q: How do I receive my Alerts?

A: Notifications and Alerts are sent directly to your App. You can also request for these to be sent via SMS and calls these alerts will use your SIM's plan.

Q: What is the data security policy?

A: At NutTAG we operate a safety and security first approach – we store all of our data on Amazon Web Services which are located in Sydney and offer a gold standard of data whilst in transit and at rest.

Q: After sales support?

A: We're here to help, through e`mail, live chat or call our hotline.

Safe pup

We have used a number of GPS trackers for our dog and found the Spot to far exceed expectations with the longest lasting battery. It keeps our dog safe when we are at work and perfect when up at the farm. We use geo-fence alerts which sends us alerts to prevent dangerous situations, without continuous monitoring - which is great!

- Linda K.
