OUR STORY

Hi! We're Kendall and Steve, the owners of Sadie & June. We started S&J from our home in Ottawa, ON in May 2015. With me being from New Jersey and Steve from Ottawa (and us meeting in Florida!), our love for travel has always played an important role in our family's story.

Our hand-embroidered heart maps were born out of this love and our belief that love knows no borders.

The concept: I began embroidering through paper vintage map prints that meant something special to me and Steve.

I chose a classic and simple red heart because of how it boldly stands out on each map. The heart can carry many meanings: where you love, where you met your love, where your heart remains, etc. In 2017, Steve learned how to stitch and we decided to embroider our customers' unique stories full-time. We love hearing their own stories of love and travel - and how our maps have become their go-to thoughtful gifts!

And if you're still wondering who the heck Sadie and June are - they're pets! A cat and a dog :)
