- 100 Sheet Multi-Bypass Tray
- Additional 250-Sheet Paper Feed Unit

## COLOR MANAGE SYSTEMS INCLUDED

Enjoy enhanced free printer software for Mac® and Windows software platforms, with unique and functional color output settings optimized for sublimation production.

**PowerDriver v4 for Windows OS:** Works with desktop graphic design programs—such as Adobe® products and CorelDRAW®—applying color and print management for optimized printing with SubliJet-HD inks and sublimation substrates.

**MacProfile with Swatch Palette for Mac OS®:** Enables images created with desktop graphic design programs for Mac OS® to print in rich, vibrant color across a wide variety of image types through SG400 and SG800 printers.

**CS Print and Color Manager for Windows and Mac OS®:** Designed specifically to enable the SG400 and SG800 to print graphics created in CreativeStudio Online Designer.

## MINIMUM SYSTEM REQUIREMENTS

Please consult with Transfer Paper Experts to ensure that you have an adequate computer system to effectively run not only the printer, but your chosen graphic software programs as well.

Windows 1 7, Windows 8/8.1 and Windows 10/Mac OS X 2, 3

- Minimum RAM: 2 GB
- Recommended RAM: 4 GB
- Recommended CPU: Dual Core 2 GHz
- Min. Free HD Space: 10% Free

Sawgrass reserves the right to limit support to customers that use less than the minimum stated requirements.

Note: 1. Only Windows Professional, Business, Enterprise and Ultimate Editions have been tested and approved. 2. Only compatible with Intel systems running Macintosh® OS 10.6 or later, current with the absolute latest Apple® software updates. 3. Mac OS X is not compatible with PowerDriver.

## ESTIMATED COST: \* : \$1.08/FT2

Image cost and print speed estimates are based upon an 8" x 10" test image on Letter or A4 media and are provided for platform comparison purposes only. Results will vary depending on many variables, including image size, media size, coverage, color management settings, etc.
