

Lilly & Milly[®]

A U S T R A L I A

Experience Beauty from the Australian Farmland

Lilly and Milly are two goats who live on an Australian farm. On the farm, they are free to run and play with all the other goats and animals. When they are hungry, they find plenty of grass to eat, when they are tired they sleep under a shady tree near the clear, fresh water of the river. The farm has a beautiful orchard filled with olive trees, macadamia nut trees and tea trees. At Lilly & Milly, we use quality natural ingredients in our products. Enjoy our beautiful products and feel the happiness, peace and calm from Lilly & Milly farm life and the picturesque Australian countryside.

UNIQUENESS

Typical fresh goats milk soap requires added fragrance to mask the goats milk smell. Uniquely, Lilly & Milly soap is formulated with Caprilac concentrated goats milk powder and offers a choice of fragrance free goats milk soap for delicate and sensitive skin. Contains herbal extracts, rich in calcium, vitamin B6 and vitamin A. Contains natural sweet almond oil and vitamin E. It gently cleanses, moisturises and nourishes your skin, leaving your skin feeling delightful, smooth and hydrated.

LILLY & MILLY – TRUE LUXURY FRENCH MILLED SOAP

Lilly & Milly Goats Milk Soap is using the French Triple-Milled method in its production. Triple-Milled means it is refined three or more times through a heavy duty roller mill. This crushes the soap crystals into a fine paste - making their lather **much smoother, creamier and more luxuriant than normal soaps!**

WHY LILLY & MILLY GOATS MILK SOAP

Contains natural sweet almond oil, natural herbal extracts and vitamin E. It gently cleanses your skin, leaving your skin feeling delightful, smooth and nourished. Suitable for baby, dry, itchy and sensitive skin.

Caprilac goats milk powder is 7.5 times more concentrated than fresh goats milk. **13% more calcium, 25% more vitamin B6, 47% more vitamin A**

Luxury French Triple-Milled - has no impurities and is much smoother, creamier and more luxurious than other soaps. French triple milled soap has a higher density than regular soaps so each bar lasts much longer. Offers great value for money!

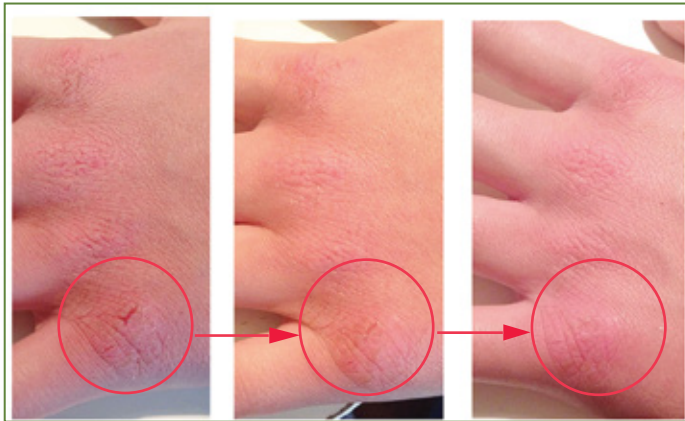

GOATS MILK SKINCARE - COMBINATION OF NATURE & SCIENCE

Product applied: Recovering Concentrate + Hydrating Moisturiser

Before

1 day after apply

Recovering Concentrate

Hydrating Moisturiser

Goats milk contains many different vitamins that are beneficial to the skin. The goat milk's unique protein and its capric and caprylic acids, allow the milk's rich emollients to be absorbed without stripping away your skin's natural protective oils.

HOW DOES IT WORK

STEP 1 **Lactic acid** in goats milk helps gentle exfoliate dead cell allowing the actives to penetrate

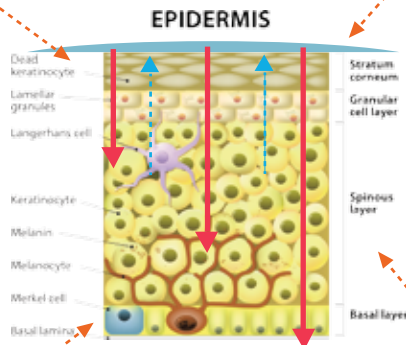

STEP 4 Goats milk is rich in essential fatty acids and triglycerides. It **protects the skin from water loss**

STEP 3 **Botanical actives** arrive in the deeper layers of the skin to nourish and repair the damaged tissues

STEP 2 **Small molecules** and permeable ingredients penetrate into deeper layers of the skin

Lilly & Milly is the first Australian brand developed based on the theme of an Australian farm. Lilly & Milly provides natural quality personal care and skin care products to our customers. While they enjoy our beautiful products, they can also feel the story of the brand bringing happiness, peace and calm from Lilly & Milly farm life and the picturesque Australian countryside.
