chilltap[™]
Chilled Water Taps

The ChillTap is the perfect drinking fountain on your benchtop.

The ChillTap delivers filtered chilled drinking water, it's perfect for entertaining or just grabbing a refreshing glass of chilled water.

The chilled filtered water comes from the NeoChiller®, a chiller unit that fits neatly beneath your bench and plugs into a 3-pin plug.

Filtered Chilled Water Lever

NeoChiller® under-bench chilled water tank & filter

Compact under-bench chiller for cold filtered drinking water

NeoChiller® is a compact filter and chiller unit that fits neatly beneath your worktop and connects to several of our taps. It filters water from the mains supply, removing impurities to ensure a fresh, pure taste. And it cools the water to the perfect drinking temperature, straight from the tap. With NeoChiller® there's no messing around with filter jugs, no lugging bottles of water home from the shops and no plastic waste.

- Small, compact domestic chiller unit
- Designed for easy installation under the kitchen sink
- Dispenses up to 7 litres per hour of cold, still water between 3°C and 10°C
- Filtered to remove impurities and odours, without affecting the water's natural mineral content
- Ice-bank cooling technology for optimum performance
- Standard 3-pin plug that plugs straight into a wall socket.
- CE approved

CH1100 - Chrome
Product Code: CH1100-CH

CH1100 - Brushed
Product Code: CH1100-BR

NeoChiller®, filter and full installation kit included.

Filtered water... just tastes better!

All InSinkErator DualTaps come with an in-line filtration system using replaceable cartridges. The super fine 5-micron filters reduce impurities and odours, giving you better tasting water for your water bottle, coffee or tea.

The twist-off/twist-on filter is easy to install and designed so the water automatically shuts off when the filter is removed, eliminating the need for a separate shut-off valve. Depending on local water quality and usage volumes, filter replacement is recommended every 6-12 months.

Easy removal and fitting of water filter

F-701R Replacement Filter

- Super fine 5 micron filter for even cleaner water
- Quick-Connect Push-In Fittings guarantees a quick, easy installation
- Valve-in-Head Design automatically shuts off water flow when filter cartridge is removed, eliminating need for separate shut-off valve
- Low Pressure Drop Filter design assures consistently flawless performance
- Reduces chlorine, lead, turbidity, particulates & other unpleasant tastes and odours
- NSF Standard 42
- 6-12 month expected filter life, depending on water quality and use
- Two filter cartridges per pack
