

PROFESSIONAL BROW LAMINATION BROW PREP AND AFTERCARE

Proper brow prep and aftercare play a crucial role in the overall outcome of the service. The correct aftercare practices will help you achieve optimal, long-lasting results.

Brow Care Tips For Pre & Post Brow Code Treatments:

1.

Avoid using makeup and facial cleansers around the brow area 24 hours post-treatment.

2.

Avoid prolonged exposure to direct sunlight, and the use of sunbeds, saunas, steam rooms, and swimming pools for 24 hours post-treatment.

3.

Avoid exfoliating and using anti-aging products around the brow area for 72 hours before or after treatment.

4.

Avoid using Retin-A and AHA around the brow area for 72 hours before or after treatment.

5.

Avoid using any self-tanning products on the face for 72 hours before or after treatment.

6.

Keep your brows dry for 24 hours post-treatment.

7.

Avoid the temptation to over-touch the brow area after treatment.

8.

Apply Brow Gold Nourishing Growth Oil daily to keep the brows nourished and healthy.
