INTRODUCTION KERCKHAERT

“We are delighted to introduce to you, our new polo brochure. This includes the full range of Royal Kerckhaert Polo Horseshoes and polo studs.

For all equestrian disciplines, The Royal Kerckhaert Horseshoe Company is the preferred choice for the world’s best farriers”.

Introducing our new Kings High Goal Polo Shoe.

Kerckhaert Kings High Goal Polo

The new toe clipped front shoe has a bevelled outside edge to reduce stress to the hoof during competition, while the special higher inside rim gives more grip on grass than a traditional shoe. It includes all the high quality features you would expect from Kerckhaert.

The front shoe also comes in a traditional concave style, with all the usual Kerckhaert features - radius clip, sole relief, pitch, boxed off heels and always made with the highest quality steel.

The hind shoe comes with a pre drilled and tapped 3/8 stud hole. Both the front and hind shoes have an increased depth of material which gives extra wear and improved grip on grass.

Kerckhaert Kings Polo ES

Our original and highly popular shoe is perfect for the majority of polo ponies, especially those playing on arenas. The great Kerckhaert shape allows easy fitting and helps keep the pony’s hooves in good condition.

The Kings Polo High Goal features the unique Polo Grip and traditional front shoe design. Also the hind shoe incorporates the 3/8 stud hole. The thicker section gives better cut into the turf.

Handmade Quality

KINGS POLO HIGH GOAL

Option 1

Developed from its Kings Polo shoe, the new Kerckhaert High Goal Polo shoe retains all the popular features but with the addition of a new section of material.

The thicker section gives improved grip and traction giving the polo ponies more confidence on grass when playing at high speed.

The Hind Polo shoe has the great easy to fit shape when shoeing either hot or cold and comes with a pre drilled 3/8 stud hole in the hind shoe.

Option 2

The Kerckhaert Steel Kings Extra Sound Plus front shoe also makes a great combination. The same section offers improved grip. The heels are more upright and have a wider bearing surface giving the hoof more support.

RECOMMENDED NAILS

You can choose between the Liberty E style or for the weaker feet, the Liberty LX range.

POLO STUDS

Polo Studs

Approved studs for polo, meeting all rules and regulations.

Blank Studs

Recommended for keeping the holes clean prior to competition.

RECOMMENDED PRODUCT

Polo Stud Kit, containing:

- | | |
|-----------------|--------------------------|
| 8 x Polo studs | 1 x Pack stoppers |
| 4 x Blank studs | 1 x Spanner tap |
| 1 x Hoof pick | 1 x Stud hole brush/pick |

The Kings Polo has a lighter section with plenty of width to support the hoof. Ideal for all levels of polo, especially arena polo. The hind shoes come with a 3/8 stud hole.

Handmade Quality

KINGS POLO

Steel Kings ES Front

The Steel Kings Extra Sound design gives a front shoe with a wide section for cover and support. The bevelled heel design gives the farrier the option to fit the shoe safely while giving width and support.

The Kerckhaert shape is as always quick and easy to fit. The radius clip – with rounded edges – reduces the amount of hoof wall that needs to be removed while fitting. The nail holes are not only punched in the optimum position, but also have the correct pitch and coarseness.

- Drop forged
- Sole relief
- Radius clip
