Repour Winesaver

Repour is a new, simple, and effective wine preserver, which absorbs oxygen from the bottle.

You just replace the cork with the stopper when you open your wine, and it preserves the wine for the life of the opened bottle, neither extracting anything nor introducing anything into the bottle.

Use one stopper for each opened bottle of wine, and recycle when finished.

Single Stopper \$3.50, 4 Stopper Pack \$12.99, from liquor stores in Edmonton, Calgary, and Lethbridge.

Be Fresh Dips

Chef Paul McGreevy has been busy creating new Be Fresh ready to eat dips and spreads. They're gluten-free, dairy-free, and vegan, and we love the chunky texture. Spanish Roasted Red Pepper Dip is made from roasted red peppers, onions, almonds, red wine vinegar, oils, and spices, and makes a great punchy addition to pasta, on flatbreads, or with roasted chicken. 250g, \$6.

Mayan Dip is verdant green and made from pumpkin seeds, red onions, lime juice, jalapeno, and spices. Both are delicious just with crackers and in tacos, but try the Mayan with gnocchi, or fish dishes too. Pick up at Blush Lane stores in Edmonton and Calgary, and at Spud.ca. 250g \$6.50.

Frog Friendly Wild Organic Coffee

Frog Friendly Coffee is certified organic and responsibly harvested with a "walk in, walk out" approach as the beans grow wild in the indigenous Oaxacan cloud forest, where founder, Karla Ferster, spent much of her childhood. She's passionate about green, ethical, and transparent habits, with a goal of benefiting communities through a long-term legacy of equitable employment and social support.

Available in decaf, medium, dark, and espresso, Frog Friendly is a Bourbon Arabica coffee, roasted in small batches in Canoe, BC, and low in acidity for sensitive tumms. Available in markets across the province.

Evil Corporation Brewing IPO

IPO is the Initial Public Offering from a new bespoke brewery, Evil Corporation. The five founders spent years brewing in their kitchens and garages and had fun with their name - cutting through business speak.

The can reads that this IPA is "designed for an aggressive takeover of your taste buds," and it's true; caramel malt, and Citra, Crystal and Magnum hops produce a very flavourful strong beer (6.8% ABV), malt forward with sweet tropical fruit undertones. CSPC +811747 473 mL \$4-\$5.
