

Handy Helpful Tips for Prior & Post DIY Green Reaper Applications - Cockroaches

Prior to Application

- Clear all floor area (including vinyl etc) of toys, books, cables etc.
- Vacuum thoroughly throughout the property (all floor coverings).
- Strip all beds in property and launder.
- Put away all foodstuffs, utensils, appliances securely inside cupboards.
- Put away toothbrushes, cosmetics etc.
- Empty out all kitchen cupboards, drawers and pantry. (Recommend) Obtain temporary storage boxes to hold items in until treatment is complete and dry. Place as many foodstuffs into refrigerator. It is also possible for cooking utensils, cutlery, pots & pans etc to be placed on a table covered **completely** with a drop cloth prior to application process.
- Completely empty hot water cupboard.
- Remove all pets from the property on the day of treatment and don't allow return until treatment has completely dried. Make sure fish tanks are securely covered and turn off air pump until ventilation process occurs.
- Persons need to vacate property for at least 3-4 hours or until treatment has completely dried.

Post Application

- Persons returning to the property need to immediately open all windows and doors to ventilate property.
- Never allow children, infants, pets or persons onto treated surfaces until completely dry.
- Always line drawers with clean paper lining before placing removed items back.
