

**CAUTION** Keep out of reach of children.  
Read safety directions before opening or using.

**GREEN REAPER PROFESSIONAL STRENGTH INSECT SPRAY, CONTROLS NEW ZEALAND'S MOST COMMON DOMESTIC INSECTS.**

**DIRECTIONS FOR USE:** Concentrate can be applied all year round. Shake bottle well before use. Dilute 1 part concentrate to 5 equal parts water. Spray a light mist to hard surfaces, cracks and crevices in and around buildings to the point of run-off and allow to dry. Spray can be applied to most indoor outdoor surfaces where insects land, crawl or come together. Avoid any contact with treated surfaces until completely dry. Areas exposed to sunlight will need to be treated more often as direct sunlight breaks down applications (completely). Re-apply as and when required. **NOTE** - Porous surfaces may need a second treatment once the first treatment has been allowed to dry. Non-staining product to most surfaces. Always test on a discrete area before full use.

**WARNING:** Avoid breathing in spray mist or direct contact with skin. **DANGER** - May cause allergic skin reaction or asthma symptoms if inhaled.

**PRECAUTIONS:** Wear gloves. Use in well-ventilated areas. Do not apply onto or into water, toxic to aquatic life. Avoid release into environment or contact of spray with children, pets (including goldfish), food, food prep surfaces or utensils. Always cover fish tanks and exposed foods when applying. Wash food preparation surfaces and utensils after using after spraying. Always wash hands and exposed skin after handling product. **NEVER** - spray onto plants, animals, glass, windows, tiles, paintings, refrigeration motors or any other electrical contacts.

**INGREDIENTS:** Permethrin 9.8g/L. - Also contains Essential Oils of Eucalyptus and Citronella.

**EPA APPROVAL CODE:** HSR008029

## PROFESSIONAL STRENGTH INSECT SPRAY

CONTAINS CITRONELLA AND EUCALYPTUS

**For residual control of:** common spiders, ants, flies, fleas, carpet beetles, cockroaches, mosquitoes, silverfish, bedbugs, moths and borer.

**SPRAY FOR INDOOR AND OUTDOOR USE**

**FIRST AID:** If medical advice is needed, have product container or label on hand. In any case of poisoning contact the National Poison Centre on 0800 764 766 or a doctor. If inhaled, move to fresh air, keep warm and rest until recovered. If skin contact occurs, wash with plenty of soap and water. If skin irritation or a rash appears, seek medical attention.

**STORAGE AND SHELF LIFE:** Store in original container, tightly closed, in the dark. Product degrades if kept in sunlight. When stored correctly this product should not show any significant degradation for two years from the date of manufacture.

**SPILLAGE AND DISPOSAL:** Discard rinsed empty container into household rubbish. In the event of a spillage, contain spill and if liquid unable to be recovered for use, absorb with sand or similar material and dispose of in container into rubbish.

**CONDITION OF SALE:** Green Reaper NZ Ltd accepts no liability for accidents or damages resulting from the improper use or storage of this product.
