

IMPORTANT: Installation should be done by a qualified electrician. Please read all instructions before continuing

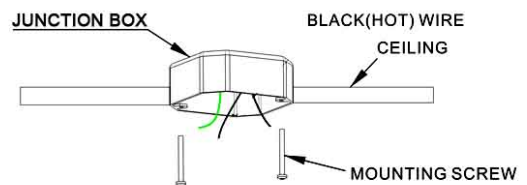

This fixture must be wired in accordance with the National Electrical Code and applicable local codes and ordinances. Hykology cannot and will not be held liable for any modifications or the results of any modifications to electrical devices. By using these instructions, you are solely responsible for following all safety procedures, codes, methods of installation and materials. If unsure about any instruction or installation method, please contact a qualified electrician or electrical expert.

Installation Instructions

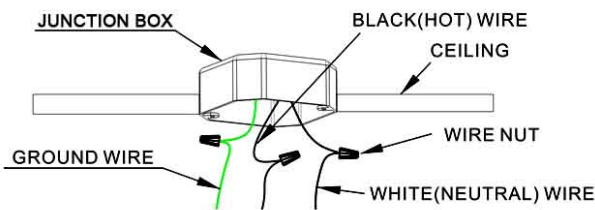

1. Remove the diffuser by turning 4 decorative nuts on metal ring anti-clockwise.

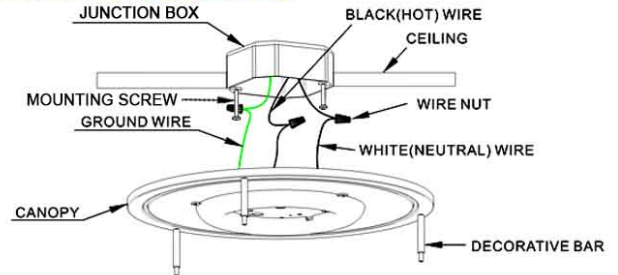

2. Screw the long mounting (screws included) into junction box about two complete turns.

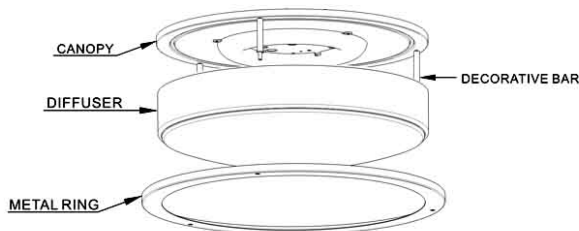

3. Connect wires by wire nuts then put the wires into the junction box (figure 3).

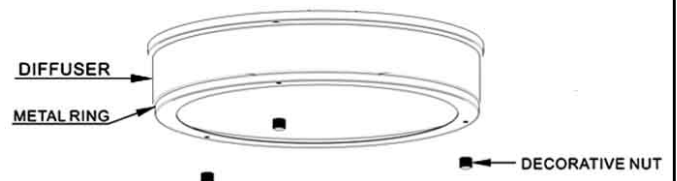

4. Put canopy through the long mounting screws in the junction box, then rotate the canopy clockwise to secure it.

5. Align diffuser on the canopy, then place the metal ring on diffuser, let 3 decorative bars come out of the metal ring.

6. Twist 3 decorative nuts on top clockwise to tighten the ring and diffuser.

Warning: Turn off the power before installation

The Installation must be carried out by a qualified electrician.
