### **Definition of Legend**

1 : A story coming down from the past especially : one popularly regarded as historical although not verifiable.

2 : An explanatory list of the symbols on a map or chart.

### **Definition of Zentangle Legend**

1: The stories and tales about some of the people, the tangles, the techniques and of course, the magic behind the history of Zentangle. Stories are as true to the storytellers memories as can be, but tend to contain bits of whimsy.

2: A small card designed for earliest Zentangle kit decorated with 20 different tangles and their names, numbered 1 through 20. The card was to be used in accompaniment with a small 20 sided dice. The user would roll the dice to determine which tangle to use next.

3. A small booklet designed later with the similar purpose of choosing tangles. This Zentangle Legend is filled with 11 templates for you to create your own legends.
