

## NOVA Mounting Manual for Head Tube and Seat Stay - English

- 1.** Place the bracket on the head tube/seat post. Attach it by stretching the silicone ring around the tube.
- 2.** Place the light in the bracket and fasten it by using the tool from the NOVA Dynamo.
- 3.** Insert the cable in the light as well as in the dynamo. Spin the wheel to check if the light works. If not give the cable an extra push to make sure it is inserted all the way.
