BUNGALOW

70062 Bungalow TV Lift Cabinet

The Bungalow's design was influenced by both the Lodge and Arts and Crafts design movements to accentuate the unique style of your home. The exquisite chestnut finish combined with its antique hardware give the Bungalow a modern yet timeless look. The Bungalow features small display cutouts in its cabinet doors for displaying knick knacks, such as books or framed photos, adding to both the style and utility of the piece.

The Bungalow can accommodate flat screen televisions up to 60" diagonal. Thanks to its whisper-lift technology, the Bungalow allows you to stow your television away when you want it hidden out of sight and lift it on display when you want to use it. The TV lift will lift your flat screen, sturdily and smoothly, up to 36" out of the cabinet within seconds. The Bungalow has plenty of storage space inside for your electric components such as your DVD player, cable box, and gaming system. Additionally, this unit features sliding panels in its rear for easy access to your television wires and connections.
