

Mirror Onyx[®]

Mirror Faced Wall Mounted Electric Fireplace

MIRROR ONYX[®] FIREPLACE

80008 50" Mirror Faced Wall Mounted Electric Fireplace

Touchstone's Mirror Onyx is a 50" wide electric fireplace with the same deceptively lifelike flame as the original Onyx. Its mirror surface makes it the perfect piece for foyers, bedrooms & dressing areas, bathrooms, or any other space that needs the depth a large mirror delivers. The mirrored glass allows you to display your electric fireplaces realistic flames only when the unit is powered on. When the unit is off, the mirror conceals the logs within and its front is a complete mirror surface. While the Mirror Onyx can be used without the heat on, it does offer 2 levels of heating (1500W & 750W) to heat any space up to 400 square feet. Additionally, Touchstones Mirror Onyx Electric Fireplace requires a simple installation with easy step by step instructions.
