

# Sideline® Steel 50

50" Screen Faced Electric Fireplace

## SIDELINE®STEEL FIREPLACE

### 80013 Recessed Insert Electric Fireplace with Heat and Steel/Screen Face

The Touchstone Sideline® Steel Electric Fireplace takes all the features of our popular Sideline® glass faced fireplace, but brings it to you in a matte black steel face design, ideal for more traditional room settings. In place of the glass face of the standard Sideline®, the Sideline® Steel offers a black steel frame, with the heating element and logset behind a classic fireplace screen, lending to its more classic look. It's ideal for dens, basements or any room where a standard fireplace is being replaced or was never installed. The Touchstone Sideline® Steel Electric Fireplace was designed to meet the needs of contractors and do-it-yourself installers, who are looking for the realistic flame of a Touchstone fireplace mounted flush to a wall. By eliminating the glass surface, the design lends itself to less modern installations.
