These Are the Best Lip Exfoliators for Smooth and Hydrated Lips

by MAYA ALLEN

Dry season has officially sprung. One thing that the cold always does without fail is suck all the moisture and life out of your lips—it's a given. We don't condone dry lips, which is why two very important things need to essentially become your sidekicks: a [hydrating lip balm](#) and a hardworking lip exfoliator.

Trust us, exfoliating your lips is a serious TLC treatment. Moisturizing lip scrubs will leave you with soft and supple lips free of flakes and dryness. After some crowd-sourcing, we came up with 10 of the best lip exfoliators made of really amazing things that your lips will become addicted to. **Click through for the lip exfoliators that need to be staple fixtures in your skincare routine.**

Kari Gran [Lip Scrub](#) (\$16)

The problem with a lot of lip scrubs is that they feel rough and unpleasant on your lips. Kari Gran dreamed up an all-natural scrub full of oils and organic beeswax that feels like the total opposite. This silky lather will feel soothing to the touch and give your lips the same results.
