## Kari Gran Skin Care's Local Potions

Smooth things over

Sometimes you want to go au naturel. Most times we'd urge you to reconsider.

Unless your [bare beauty look](#) comes courtesy of Kari Gran's new skin care line.

After years of creating [chemical-free products](#) in her kitchen, the self-proclaimed beauty junkie and former real estate agent opened her South Lake Union loft and made it her day job.

Gran whips up the small-batch potions using organic, wild-harvested, and non-GMO ingredients (rose hip, calendula, avocado oil) and stores them in violet glass bottles.

Her back-to-basics approach involves three key products: a luxurious cleansing oil to remove impurities and balance oil production; a hydrating rose or lavender tonic to soothe; and an [essential](#)

[serum to moisturize](#). Show your parched pucker some love with the addictive lip whip, made from beeswax, peppermint oil, and vitamin E.

It's only natural.

*Kari Gran Skin Care, 1735 Westlake Avenue North, suite 500 (206-257-1226); at [karigran.com](#), \$15-\$95. By appointment only.*
