Kari Gran Skincare Range Review

I was delighted to receive samples from **Kari Gran's Skincare Range** last month. The brand specialises in eco luxury skincare and makeup, which as you know; I love. I am very picky with my skincare products, but Kari Gran has exceeded my expectations. After a months worth of use – I'm happy to say that I have now found my new **Holy Grail Skincare Products!**

**Cleansing Oil:** Cleansing with oil may seem strange, but it has in -fact been used for thousands of years as a cleanser. It's one of the best ways to draw out impurities, and Kari Gran has insured the method is both effective and luxurious.

**Method and Results:** I massaged about 5 pumps of the oil into my skin every evening, I then applied a damp, warm washcloth over my face, and gently removed my makeup. This method is very relaxing and easy to use – with the scent of lavender it's a wonderful aromatherapy treatment as well. It left my skin clean, exfoliated and moisturised all one! The only down side is that it's not the best eye makeup remover.

**Lavender Hydrating Tonic:** With distilled Aloe Vera Leaf and lavender essential oil, this is a beautiful hydrating treatment.

**Method and Results:** There are a few ways in which you can apply this; you can either spritz it directly onto your face or mix it in with the essential serum for a extra moisture boost. I love both methods as the tonic is well concentrated. It's a lovely mist and moisturises very well.

**Essential Serum:** This serum contains over 15 different nourishing plant, and essential oils. It can be used as a moisturiser on its own or as a base for mixing mineral makeup.

*Method and Results:* I've used this as a night time treatment, daily moisturiser and also mixed it in with my mineral makeup to create a liquid foundation. It's an amazing product, and leaves the skin with a beautiful glow. I love it!

**Tinted Lip Whip:** This lip whip is gorgeous, and highly moisturising. It tastes of cinnamon, and leaves a lovely natural pink tint on the lips. And if that wasn't enough, It also gives a pretty plumped up look. What's not to love with this product?
