## Kari Gran Radiant Lip Whip & Brush Review

Meet Kari Gran Radiant Lip Whip, stunning isn't she? This beauty is made with the same natural soothing ingredients as the tinted and naked whippies. Is this the perfect lip whip meets lipstick? I put it to the test.

**Pros:** Soothing, hydrating, moisturizing, light weight texture and feel, beautiful everyday color, shine/gloss without being a sticky hot mess, fresh peppermint flavor, smell and slight tingle, no fuss/no mess retractable lip brush.

**Cons:** The only con for me is... I really wanted more of the "lipstick" color out of this lip whip. My lips err on the pinky toned side as it is. I would have loved to see a more boldly pigmented pink hue.
