

Kari Gran Lip Whip in Tinted & Radiant for your softest lips

Posted on [March 11, 2015](#) by [My Lucite Dreams](#)

Kari Gran Lip Whips maintain a cult following and its easy to see why. These all natural and organic balms are infused with castor seed oil, sunflower oil camellia seed oil, olive oil and beeswax. They come in six shades and are available in either cinnamon or peppermint. The unique whipped texture effortlessly glides across lips, instilling optimal moisture, and leaving behind a glossy sheen.

The Lip Whips provide a significant textural appeal with an incredibly soft, and balmy feel. They're not sticky in any sense, thus perfect for a multi-use moisturizer. Use the Naked and Radiant shades as a cuticle moisturizer, flyaway tamer, or add them to your cheekbones for a luminous sheen. All shades can be worn alone, or on top of your favorite lipstick for some extra moisture and a glossy finish.

Kari Gran Lip Whip in **Tinted*** creates a uber subtle nude sheen. It lightens my natural lip color just a touch. **Radiant*** is a beautiful pink shade that delivers a surprising amount of pigment, yet subtle still. Radiant is a perfect pop of pink for a healthy dose of natural color.

Kari Gran Lip Whip in Tinted \$15 and Radiant \$20
