Launches We Love!

As more and more makeup lines are launching with healthy ingredients and beautiful color palettes, there is simply no good reason not to choose natural makeup!

La Bella Figura More than Makeup

La Bella Figura is smart about skincare, and its new makeup line, with skincare properties, is thoughtful, as well. The Golden Corrective Highlighter is infused with vitamin C-rich kakadu plum, the lovely Hydrating Lip Colours are loaded with

cupuacu butter, and the silky eyeshadows contain camellia seed oil.

Kari Gran Mineral Makeup

The Seattle-based boutique skincare company just launched a line of mineral makeup that is as simple and well-curated as its skincare. Just five products to start: mineral foundation, concealer, blush, setting powder and eyeshadow in classically elegant neutral shades. karigran.com

Acure Lip Lushes

We love Acure Organics' skincare, which is why we were thrilled to see the launch of Lip Lushes, a line of five juicy glosses made with argan oil, and echinacea and edelweiss plant stem cells, to plump and protect your precious pout. Gluten-free, NSF-certified, and not sticky or slippery, thank goodness! acureorganics.com
