You already know that I am a huge fan of Kari Gran's Lip Whip...I talk about it [here](#). But she's just taken this to a whole nutha level with her Limited Edition Radiant Lip Whip and brush! Taking a nod from this year's Pantone Color of the year- Radiant Orchid- this Lip Whip is a beautiful purple-ish pink, leaving just a hint of color on your lips. So, for those who wanted to experiment with the new Pantone Color...but didn't want to go that bold, this is the perfect option. Of course, like all her Lip Whips, this one is also super, deliciously good for your lips and leaves them smooth, nourished and soft...this time, with just a little tint as well!
