New locally made red gloss treats lips and adds drama

By Bree Coven Brown
Special to ShopNW

Pucker up for Valentine's Day with **Kari Gran's Suji Red Lip Whip**, a new bold red version of the local line's cult-favorite lip treatment.

The rich balm-lipstick hybrid is handmade in Seattle from organic, wild-harvested and non-GMO ingredients such as sunflower and camellia seed oils, organic beeswax and moisturizing natural vitamin E. It's highly pigmented, but can be layered to be more dramatic or subtle.

Suji is named for company co-founder Lisa Strain's youngest daughter, who fell in love with a red lip at an early age and, now grown up, collaborated with her mother to create the perfect shade.
