Kari Gran **Lip Whip** is one of a kind, not only do I love the name but also the choice of packaging down to what's inside this little goodness and how effective it is. It's the good stuff. It's your little black dress in a beauty pot.

So of course, when I had the chance to test their products, this beauty bean just had to say the big fat YES to this **Peppermint-flavored Tinted Lip Whip**. And boy, I think I'm in love!

Why this lip treatment is simply amazing?

This tinted lip whip (*and it does have that beautiful whipped effect when you first open the pot as long as it didn't get squashed*) gives my lips the moisturizing boost and the most wonderful cooling effect that I wish will last for eternity. LOL.

No seriously, the minty kick is a big plus for me because it helps soothe my lips and give me that tiny *just bitten* sensation without the plump effect. It doesn't feel heavy nor greasy, it just feels very smooth and hydrating. The right amount of sheen or gloss transforms my wrinkly lips into a healthy-looking pout and that peace of mind knowing I'm not ingesting any crappy stuff.

Kari Gran Lip Whip comes in two flavors, Peppermint and Cinnamon-Pimenta Berry (*oh the spice!*) in this petite screw top pot. You can either go for the naked lip whip or the tinted ones plus you can use it alone or with your favorite lipstick. It retails for \$15 per 7ml and they provide FREE SHIPPING (I believe this is US only).

This eco-luxe skincare lip treatment definitely hits home for me and yes, I'm more than willing to spend **\$15 (7ml)** for this pot because not only is this my lips new BFF, it's also a multi-tasker! I sometimes use it slightly under my eyes to give me that refreshing coolness, which puts me into an alert mode. It works great on my cuticles, and works like a charm on any dry patches around my knuckles and on my cheeks. Just a little dab does the trick.

So if you ask me, what's in your handbag? For sure, I will have this little black dress of beauty pot. I think everyone should, don't you think? 😊

Q: What do you think of this lip whip? Is this something you would try?
