Kari Gran Lip Whip in "Jolene"

Don't let the strong fuchsia of this potted balm scare you away—when applied, the Kari Gran Lip Whip formula thins out to enhance your lips with its pink tone rather than being too much of a good thing. As Kari Gran is primarily a skincare line, you can be sure that the product isn't just a lip color, either; the Lip Whip line was actually formulated to be "Skin Care for Your Lips," which makes it perfect for dry, chapped lips, or just a day on which you've worn lipstick way too many times in a row but still want to bring some color to your face.
