

## 17 Natural Cosmetics We Love

Tuesday, June 17, 2014

When it comes to choosing makeup, the possibilities are endless. But have you considered all your options? “Natural ingredients found in cosmetics have many beneficial properties. Look for ingredients like jojoba oil, vitamin C and aloe,” says cosmetic chemist [Kelly Dobos](#). “Jojoba oil is an excellent moisturizer because it contains lipids similar to those naturally found in skin. Vitamin C is great for anti-aging and brightening the skin and aloe has soothing and anti-irritant properties.”

From brow pencils to blush, we’ve rounded up 17 editor-approved products that are not only natural, but are also as good for your skin as they are for the Earth.

### **For the Face: The Setting Powder**

**Key ingredients:** Aloe vera and mica

Are you guilty of forgetting to set your foundation with powder? Again, don't worry, so are we, but thanks to the chemical-free **Setting Powder** from Kari Gran's mineral makeup line, we won't be skipping this crucial step again. This ultraluxe, ultrafine powder feels like silk and gives you a flawless finish and will have you shaking your head that you ever skipped it. \$15, [karigran.com](http://karigran.com)
