THE VOICE OF BEAUTY AND ANTI-AGING

KARI GRAN LIP WHIP

Nov 26, 2013

Let me preface this post by saying I am Chap Stick obsessed; I always have a tube on me and apply it before putting on lip gloss or lipstick. After finding *Kari Gran's Lip Whip*, the extra step is unnecessary; I no longer worry about having Chap Stick on me at all times because this amazing product is so rich with lasting moisture. I had the pleasure of trying the 'pink cinnamon' flavor which is delicious and subtly pink. The product is perfect for daytime and transitions into night when going for a simple glossy look. I love the compact black pot packaging *Kari Gran Lip Whip* comes in and the cinnamon, candy-flavored formula is so pleasant on my lips and perfect for the holiday season. Whether a gift for yourself or someone else; *Kari Gran's Lip Whip* is certainly worth the purchase.
