The shake bottles are not for use with hot or warm liquids. The secure seal of the bottles does not allow pressure to escape, so placing hot or warm liquids in either bottle may cause the flip cap to open unexpectedly and spray contents.

Les gourdes ne sont pas conçues pour conserver des liquides chauds ou tièdes. Un liquide chaud ou tiède à l'intérieur de ces gourdes risque de faire ouvrir inopinément le bouchon, car le scellant empêche l'évacuation de la pression.

**Tips:** Add liquid ingredients before adding powders and thicker ingredients. Before shaking, screw lid firmly onto cup and press flip cap down. Always point the spout away from face when opening the flip cap.

**Cleaning:** Wash before first use. Clean bottles out immediately after use. All pieces of the bottles are dishwasher safe.

**Conseils :** Verser les ingrédients liquides en premier, et ensuite les ingrédients épais et la poudre. Avant de brasser, visser fermement le bouchon et garder une pression sur le bouchon du petit goulot. Ne jamais orienter le petit goulot vers le visage pendant son ouverture.

**Nettoyage :** Laver avant la première utilisation. Nettoyer les bouteilles immédiatement après utilisation. Toutes les pièces de ces bouteilles vont au lave-vaisselle.
