

## Choose The Whistle Which Best Suits You

- Loudest whistle in the world – 130 db
- Easy to hear – used by the US Armed Forces, law enforcement worldwide, a variety of US Government Agencies – when being heard is a matter of life and death
- Easy to hold – ergonomic fit to your hands and to your lips
- Environmental compatibility - works in, on and under the water

Anyone Concerned About Personal Safety Should Choose An All Weather Whistle. Two Fabulous Designs From Which To Choose.

The Storm and Windstorm personal safety whistles are manufactured by the All Weather Whistle Company, makers of the world's loudest whistles. Constructed of high-impact thermoplastic, either whistle can be heard clearly above noisy crowds, howling wind and virtually any competing sound. The Storm and Windstorm safety whistles blast out a sound that draws immediate attention.

The Storm and Windstorm whistles operate in any environment, wet or dry. Each whistle performs powerfully both above and below the water. Due to their patented water purging design, these all-weather whistles are ideal for activities such as diving, boating, camping, hunting, hiking or sporting events. The Storm and Windstorm whistles can be heard underwater for distances in excess of 50 feet and on the surface for over half a mile.

Personal Safety Whistle or Sport Whistle

### Whistle Alert Program

Either the Storm or Windstorm Safety Whistle can be used as a means of communication if you are in danger, feel threatened or witness a crime in progress.

## World's Loudest Whistle

- Can be heard clearly above noisy howling wind and virtually any competing sound; it can even be heard as far away as half a mile.
- Crowd noise or the roar of a loud engine will not overpower the sound.
- Adopted by the US military, police and security forces worldwide.

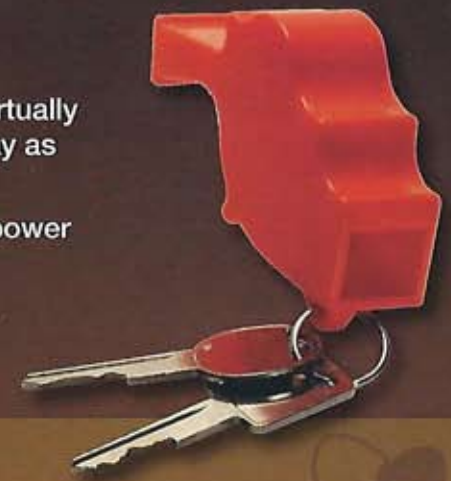

## Unique Patented Design

The Storm and Windstorm whistles work by utilizing a patented resonance chamber. This design enables the whistle to focus its sound like a laser beam and blast a noise twice as loud as any whistle made in the world.

## Harmonic Design Screams Out!

- Responsive – Emits the loudest sound with minimum effort, even for someone who is short of breath.
- Ergonomic – Fits comfortably in your hand and to your lips.
- Fits very easily into a pocket or purse.

## Great Gift, Ideal For

- Personal Safety
- Scuba Divers
- Boaters
- Campers
- Hikers
- Game Officials
- Hunters
- Bicyclists

## Works Underwater

Due to a patented water purging design, each whistle performs both above and below the water.
